The North Central Association Quarterly is published by the North Central Association of Colleges and Secondary Schools on the first day of July, October, January, and April. It is the official organ of the Association, and contains the proceedings of the annual meeting of the Association, together with much additional material directly related to the work of the Association. The regular subscription price is \$5.00 a year, or \$1.25 a copy. All members of the Association—institutional and individual—are entitled to receive the Quarterly gratis in connection with their annual fees. A special subscription price of \$2.00 per year is permitted to school libraries, college libraries, and public libraries and to individuals connected with North Central Association membership institutions. Single copies to libraries, and to teachers, students, and administrators in membership institutions are 75 cents each.

Executive and Editorial Office: 1439 University Elementary School Building, Ann Arbor, Michigan.

Publication Office: The Ann Arbor Press, Ann Arbor, Michigan.

Entered as Second-Class Matter at the Post Office at Ann Arbor, Michigan, under the Act of August 24, 1912. Acceptance for mailing at the special rate of postage provided for in Section 1103, Act of October 3, 1917, authorized March 18, 1919.

## ASSOCIATION NOTES AND EDITORIAL COMMENTS

THE thirty-ninth annual meeting of the North Central Association has come and gone. Like most of its predecessors it was highly successful. The weather was propitious, the attendance was good, the programs were excellent, the spirit was fine, and the machinery worked utterly without friction. Perhaps the outstanding address was that of President Coffman's on "Higher Education and its Present Responsibilities." Perhaps the most far-reaching piece of legislation was the adoption of the new sets of policies and procedures for the accreditation of institutions of higher education. Perhaps the most resounding chord that was played upon throughout the entire session was the demand that education in all its forms shall assist individuals to meet the current social problems.

Because of the satisfactory conditions and outcomes of the meeting, the Executive Committee once again voted to hold the sessions of 1935 in the same place and at the same relative time. Consequently the annual meeting of the North Central Association for next year will be held in the Stevens Hotel, Chicago on Thursday, Friday, and Saturday, April 11-13, 1935.

### A NEW DEAL

The keynote of the entire annual meeting held in Chicago in April was

the clarion call for a new deal in education. In every gathering the thought was expressed and reiterated that school reforms of many sorts and on all levels of administration must be made forthwith. Idealism led the march but realism kept the procession in line. Changes, sweeping changes, it was urged, must be brought about, but brought about in an orderly evolutionary way and not in a ruthless revolutionary manner.

That education must go forward in ever increasing ranges was the belief of every speaker; that it must go forward chiefly at public expense was likewise the conviction of nearly everyone. Humanity, so it was thought, is witnessing a race between civilization and chaos. Which shall win will depend upon the nature, extent and effectiveness of the educational forces that are set to work. A curriculum that is largely social in its content and objectives; a methodology that is based upon the natural interests of the learner; a procedure that starts with the immediate and tangible and leads onward to the more distant and speculative; a constant reiteration of fundamental ideas and principles differently presented, interpreted and applied as the pupil grows in maturity and advances in mental ability; a greater stress upon emotionalized attitudes, civic habits and character traits in general; a

setting up of testing procedures and standards that shall take account not so much of numerous isolated items of knowledge and attainment as of comprehensive powers and outcomes—these were the educational themes that were played upon over and over again. Complete and abundant living, now and for everyone, this was the implied slogan of all speakers.

#### S.O.O.B.A.A.G.B.O.O.M.

There is a certain Rotary Club which frequently carries at the top of its weekly news announcements the letters used as the caption of this paragraph. Being interpreted they mean: Some of our best addresses are given by our own members.

The North Central Association this year proved the truthfulness of this statement at the time of its annual meeting in Chicago. Every speaker on the general program was, so to speak, a home boy. That is, the Association this year did not go outside its own membership for a single speaker. And what addresses were given! Can any other educational association or gathering in America equal them for thought, idealism, sanity and force? We doubt it. Here is the list.

President Coffman on "Higher Education and its Present Responsibilities"

President Wriston on "Differentiation of Functions"

Commissioner Zook on "Our Youth Problems"

Dr. Judd on "Education and the General Social Order"

Dr. French on "Senior School Program for Our Developing Society"

Surely no progressive educator can afford to miss the careful reading of each and every one of these addresses. All will, in time, appear in the QUARTERLY. Two of them will be found in this issue.

#### A NEW DEPARTURE

Each year the June issue of the QUARTERLY has carried a complete roster of the officers of the Association. But

it frequently happens that readers desire to have portions of this information at hand after the summer issue is laid aside. In consequence of this fact the Editor has decided to print the names of the general officers in each issue of the QUARTERLY. Henceforth they will be found inside the back cover.

#### NEW STUDIES

The Association, through its three Commissions, has set itself the task of carrying on a number of new educational studies and experiments during the current year. The Commission on Unit Courses and Curricula has its quota of these. Among those to be taken up by this Commission are the following.

1. An investigation of the patterns of academic training for high school teachers, with the following committee in charge: Dean Henzlik of the University of Nebraska, *Chairman*, and Dean Benner of the University of Illinois, Professor H. R. Douglass of the University of Minnesota, H. H. Hagen, Principal of Crane Technical High School (Chicago), and D. S. Morgan, Principal of the Arsenal Technical Schools (Indianapolis).

2. The supervision of an experiment on general mathematics on the university level. Dean J. E. Foster of Iowa was appointed chairman of a committee to undertake the task.

#### CHAIRMAN MC WHORTER

All members of the Association who are directly concerned with the Commission on Secondary Schools know that that Commission has a standing committee denominated Committee on Standards. For years Dr. Elliff of Missouri has headed this important official body. Because of his recent retirement, however, it has been found necessary to name a successor for his former office. The QUARTERLY is happy to report that Mr.

L. N. McWhorter, Assistant Superintendent of Schools, Minneapolis, Minnesota has recently been appointed to the position of Chairman.

#### IN MEMORIAM

The Association mourns the loss by death of the following individuals.

THOMAS H. MACBRIDE, President Emeritus of the University of Iowa. At Seattle, March 27.

R. H. COOK, Principal of the Theodore Roosevelt High School, Des Moines, Iowa. At Des Moines, early in January.

JOSEPH E. STEWART, Editor of the *High School Quarterly*. At Athens, Georgia, March 25.

Dr. Stewart, of course, never has been active in North Central Association work. He was, however, a leader in the Southern Association. Dr. MacBride and Mr. Cook were in past years deeply concerned with North Central Association matters.

#### REPRINTS

The Editorial Office has the following reprints for sale.

The List of Periodicals for College Libraries, price 20 cents.

An Investigation to Determine the Correct Art Concepts of Tone for Teaching Purposes, by W. G. Whitford, price 15 cents.

There is a limited number of each of the above named reprints. When the supply is exhausted there will be no others struck off. Interested parties should therefore put in their orders at once. Remittances should invariably be included with orders.

It is perhaps appropriate to add that the Reprint of the List of Periodicals for College Libraries will include corrections of the errors which inadvertently crept into the material when originally published in the April QUARTERLY.

J. D. ELLIFF

For twenty-nine years Dr. J. D. Elliff of Missouri has represented his state and

university before the North Central Association. During much of that time he has served also as Chairman of the Committee on the Interpretation of Standards for the Commission on Secondary Schools. Now Dr. Elliff, having reached the normal age of retirement, gives up his active and official connection with the North Central Association. In doing so however he in no wise gives up or leaves behind the high admiration and respect held for him by hosts of his former fellow workers. Dr. Elliff's winsome smile, his hearty handgrasp, and his general word of greeting whenever North Central Association members have gathered together will long be retained in memory by all who know him. Each one trusts, the Editor is certain, that he may continue to grace the meetings of the Association for many years to come, even though he may not do so as an active member.

On the last day of the Commission's meeting in April, Chairman Carrothers interrupted the regular order of business to do honor, briefly but officially, to Mr. Elliff. The stenotype report of that event reads as follows:

*Chairman Carrothers:* I should like at this time, if I may, to get away from the regular program for a few minutes. We know that for a long time, a longer time than some of us have lived, a man has been giving help to this Association in a very fine way. He just now rendered an unusually good report. I want Dr. Reed to say a word in appreciation of the Commission's feeling for the service that Dr. Elliff has rendered.

*Mr. A. A. Reed:* Mr. Chairman, and Fellow Members: We have just participated in a most significant event. For many years, back of which the memory of man runneth not, this Commission has received reports from a committee, of which Dr. Elliff has been chairman. Those reports have been the bases for the most important function of this Commission's work.

When the history of American progress is written and the place of the pioneer period has been given its true significance, the work of American education will, I think, be recognized as a most important contribution to

human progress. And this American education has been evolved out of the experiences of the people themselves. As we know, our educational system is not controlled by a small group and placed down upon us. It is worked out by each local unit. And out of this experience has come, through cooperation, plans that have made for a most remarkable progress.

The North Central Association came into being as a means of coordinating the educational efforts in both college and secondary school relations. There was no established form to go by, nor experience. It was a new relationship that was sought, and with the confusion resulting from the effort of the great frontier movement to adjust itself to conditions that would give to every home the best possible status for family life, it became necessary to have some means of bringing about more or less uniformity in these procedures.

The North Central Association came into being for that purpose, and in its early days the spearpoint of the movement was the Board of Inspectors. There were names to conjure with on that Board of Inspectors: Whitney of Michigan, Aiton of Minnesota, Hollister of Illinois, and Elliff of Missouri. In those early days, under the guidance of such men as those I have named, plans were worked out that have given us a remarkable unanimity in the midst of great diversity.

Now, fellow members, it is really a great joy to us to be able to say good-bye to a brother who must drop out officially at a time when he can still remain with us in spirit and in actual relationship for many years to come. Although that official relationship is closing now, nevertheless, because of the vigor of his physical condition and the vigor of his mental relationships, we hope to have the presence and the inspiration and help of Dr. Elliff for many years yet to come.

We want to say to you today, Dr. Elliff, we appreciate more than we can say in words your years of service, the most unselfish service of which we have any knowledge, and we say it not so much for your sake (because earthly sounds fade away) as for our sake and the sake of history. We want to leave with you the assurance that those of us who have worked with you and are working with you are appreciative of what you have done. But we want to do more than that. We want to say to the young men and women who are moving in and taking up the work that you have been carrying on, that there is no way in which an individual can render a greater service to mankind and do a worthwhile task than to give one's life to fostering the educational progress of the young.

As I heard Dr. Elliff's explanation of his purpose in life yesterday, my heart was stirred and I am sure all hearts were stirred. We accept those statements as an interpretation of his lifeblood and say to the young man and young woman, "Go thou and do likewise."

We say to you, Dr. Elliff, that we appreciate most deeply these years of service. Thou hast done well, and we thank you for your efforts. [The Commission arose and applauded.]

*Professor Elliff:* I have just one word: I think I have been well repaid more than financially for all the service I have rendered. I know that I have been more than repaid in the respect and confidence of those with whom I have labored. I have been repaid in the most priceless consideration, the friendship and confidence of those with whom I have worked for fifty years. I appreciate your friendship. Thank you.

The Editorial Board is happy to present as a frontispiece in this issue of the QUARTERLY a likeness of Dr. Elliff.

## OFFICIAL ROSTER OF THE ASSOCIATION

1934-1935

### GENERAL OFFICERS

**President:** B. L. STRADLEY, University Examiner, Ohio State University, Columbus, Ohio

**First Vice-President:** R. M. HUGHES, President,

Iowa State College of Agriculture and Mechanic Arts, Ames, Iowa

**Second Vice-President:** L. N. McWHORTER, Assistant Superintendent of Schools, Minneapolis, Minnesota

**Secretary:** A. W. CLEVENGER, High School Visitor, University of Illinois, Urbana, Illinois

**Treasurer:** E. H. K. MCCOMB, Principal, Manual Training High School, Indianapolis, Indiana

#### *Executive Committee*

T. M. DEAM, Assistant Superintendent of Joliet Township High School and Junior College, Joliet, Illinois

H. M. GAGE, President, Coe College, Cedar Rapids, Iowa

F. L. HUNT, Chairman of Faculty, Culver Military Academy, Culver, Indiana

I. N. McCASH, President, Phillips University, Enid, Oklahoma

W. C. REAVIS, Professor of Education, University of Chicago, Chicago, Illinois

E. A. SPAULDING, Principal, Emerson High School, Gary, Indiana

F. L. TEAL, Assistant Superintendent of Schools, Charleston, West Virginia

The President, Secretary, and Treasurer, ex officio, and H. M. WRISTON, President of Lawrence College, Appleton, Wisconsin, the immediate past president.

#### *Chairmen of Commissions*

Institutions of Higher Education: H. M. GAGE, President, Coe College, Cedar Rapids, Iowa

Secondary Schools: F. L. HUNT, Chairman of Faculty, Culver Military Academy, Culver, Indiana

Unit Courses and Curricula: T. M. DEAM, Assistant Superintendent of Joliet Township High School and Junior College, Joliet, Illinois

#### *Vice-Chairmen of Commissions*

Institutions of Higher Education: A. H. UPHAM, Miami University, Oxford, Ohio

Unit Courses and Curricula: L. W. WEBB, Professor of Education, Northwestern University, Evanston, Illinois

Secondary Schools: H. G. HOTZ, Professor of Education, University of Arkansas, Fayetteville, Arkansas

Unit Courses and Curricula: G. W. WILLETT, Principal, Lyons Township High School, La Grange, Illinois

#### *Secretaries of Commissions*

Institutions of Higher Education: GEORGE A. WORKS, Dean of Students and University Examiner, University of Chicago, Chicago, Illinois

#### *Editorial Board of the QUARTERLY*

CALVIN O. DAVIS, Professor of Secondary Education and Secretary of the School of Education, University of Michigan, Ann Arbor, Michigan, Managing Editor

A. W. CLEVENGER, High School Visitor, University of Illinois, Urbana, Illinois

E. H. K. MCCOMB, Principal of Manual Training High School, Indianapolis, Indiana

B. L. STRADLEY, University Examiner, Ohio State University, Columbus, Ohio

G. W. WILLET, Principal Lyons Township High School, LaGrange, Illinois

GEORGE A. WORKS, Dean of Students and University Examiner, University of Chicago, Chicago, Illinois

#### *Chairmen of State Committees*

O. K. GARRETSON, Tucson, Arizona

M. R. OWENS, Little Rock, Arkansas

A. C. CROSS, Boulder, Colorado

A. W. CLEVENGER, Urbana, Illinois

C. G. F. FRANZEN, Bloomington, Indiana

W. H. GEMMILL, Des Moines, Iowa

R. C. HUNT, Topeka, Kansas

G. E. CARROTHERS, Ann Arbor, Michigan

H. E. FLYNN, St. Paul, Minnesota

JOHN RUF, Columbia, Missouri

ELIZABETH IRELAND, Helena, Montana

A. A. REED, Lincoln, Nebraska

J. W. DIEFENDORF, Albuquerque, New Mexico

J. A. PAGE, Bismarck, North Dakota

J. W. FICHTER, Columbus, Ohio

J. ANDREW HOLLEY, Oklahoma City, Oklahoma

R. W. KRAUSHAAR, Pierre, South Dakota

A. J. GIBSON, Charleston, West Virginia

J. T. GILES, Madison, Wisconsin

C. R. MAXWELL, Laramie, Wyoming

State Department—B. H. MCINTOSH, Cheyenne

High School—M. H. MOYER, Rawlins (1935)

## MEMBERS ELECTED AT LARGE

*Class of 1935*

C. L. ROBERTSON, Jamestown, North Dakota  
 C. E. ROSE, Tucson, Arizona  
 H. H. HOLT, St. John's Military Academy, Delafield, Wisconsin  
 C. E. PENCE, Harvard School for Boys, Chicago, Illinois  
 RICE BROWN, High School, Emporia, Kansas  
 JOHN BAUMGARTNER, Superintendent of Schools, Brinkley, Arkansas

*Class of 1936*

I. E. EWING, High School, Wheeling, West Virginia  
 E. H. LANDIS, Assistant Superintendent of Schools, Dayton, Ohio  
 L. N. McWHORTER, Assistant Superintendent of Schools, Minneapolis, Minnesota  
 J. H. OSTDIEK, Diocesan Superintendent of Schools, Omaha, Nebraska  
 H. D. TRIMBLE, University of Illinois, Urbana, Illinois  
 G. C. WELLS, Supervisor of Indian Education in Oklahoma, U.S. Indian Service, Oklahoma City, Oklahoma

*Class of 1937*

CHARLES S. GREEN, Assistant Superintendent, Denver, Colorado  
 F. L. HUNT, Culver Military Academy, Culver, Indiana  
 G. A. MANNING, High School, Muskegon, Michigan  
 GEORGE E. DAVIS, High School, Keokuk, Iowa  
 J. E. WORTHINGTON, High School, Waukesha, Wisconsin  
 JOHN MILNE, Superintendent of Schools, Albuquerque, New Mexico

## B. COMMISSION ON UNIT COURSES AND CURRICULA

## OFFICERS

Chairman—T. M. DEAM, Assistant Superintendent of Joliet Township High School and Junior College, Joliet, Illinois  
 Vice-Chairman—L. W. WEBB, Professor of Education, Northwestern University, Evanston, Illinois  
 Secretary—GEORGE W. WILLETT, Principal, Lyons Township High School, La Grange, Illinois

## COLLEGE MEMBERS

*Class of 1935*

H. R. DOUGLASS, Professor of Education, University of Minnesota, Minneapolis, Minnesota  
 D. H. EIKENBERRY, Professor of Education, Ohio State University, Columbus, Ohio  
 JOHN E. FOSTER, Dean of Summer Quarter, Iowa State College, Ames, Iowa

H. L. SMITH, Dean of College of Education, Indiana University, Bloomington, Indiana

*Class of 1936*

F. E. HENZLIK, Professor of Education, University of Nebraska, Lincoln, Nebraska

EARL HUDELSON, Professor of Education, West Virginia University, Morgantown, West Virginia

JOHN RUFI, Professor of Education, University of Missouri, Columbia, Missouri

J. E. STOUT, Dean, School of Education, Northwestern University, Evanston, Illinois

*Class of 1937*

J. A. CLEMENT, Professor of Education, University of Illinois, Urbana, Illinois

C. O. DAVIS, Professor of Secondary Education, University of Michigan, Ann Arbor, Michigan

R. M. TRYON, Professor of Teaching of History, University of Chicago, Chicago, Illinois

L. W. WEBB, Professor of Education, Northwestern University, Evanston, Illinois

SECONDARY SCHOOL MEMBERS

*Class of 1935*

MATTHEW P. GAFFNEY, Superintendent, New

C. COMMISSION ON INSTITUTIONS OF HIGHER EDUCATION

OFFICERS

Chairman—H. M. GAGE, Coe College, Cedar Rapids, Iowa

Vice-Chairman—A. H. UPHAM, Miami University, Oxford, Ohio

Secretary—GEORGE A. WORKS, University of Chicago, Chicago, Illinois

## REPORT OF THE EDITOR OF THE QUARTERLY<sup>1</sup>

CALVIN O. DAVIS

ONCE again the Editor of the QUARTERLY is pleased to present a report of his stewardship.

Like the territory of ancient Gaul, the work of the office of the QUARTERLY is divided into three parts. In the first place the office takes charge of all matters pertaining to the QUARTERLY itself—collecting the material, editing it, arranging it for publication, publishing it, proof-reading it, and finally distributing the finished product. Secondly the office serves as the book house of the Association, handling all or practically all of the publications that are for sale—the book entitled *High School Curriculum Reorganization*, copies of the old *Proceedings*, single copies of the QUARTERLY, reprints taken from the QUARTERLY from time to time, and Faculty Record Blanks. In the third place the office constitutes a clearing house for strange ideas, freak questions and miscellaneous problems that (apparently) no other office cares to handle.

During the course of an ordinary week fully fifty letters are received and fully fifty letters are written either by me personally or by my secretary. Many of these have to do, of course, with the routine business of the office, but many are concerned with very distantly related subjects. Nevertheless, no matter how queer and freakish a letter may be, courtesy requires that it shall be answered. And it always is answered. I am not going to bore the audience by reading many of the strange letters received but here are a few samples.

One says: "I wonder if there is any

<sup>1</sup> Made in substance to the Association at the time of its meeting in Chicago, April 20, 1934.

chance for us to procure the names of young men seniors in the high schools that are members of the North Central Association, particularly in the states of Arkansas, Oklahoma, Indiana, Illinois and Ohio." Just what this individual wanted to do with those names I do not know. Perhaps he hoped to solicit athletes.

A second letter read: "I should like to know what universities and colleges in the middle West which are accredited by the North Central Association offer courses in advertising."

Another one is phrased thus: "I desire seals for diplomas. Advise me about where I might get them. If you have them bill me for fifty."

A fourth read: "Considerable pressure is being brought to introduce Czech as a foreign language in our high schools. We are wondering if this subject would be accepted by North Central Association colleges on a par with French, Spanish, and German."

Despite the bank-holiday period of last spring and despite the generally disturbing conditions prevailing in educational circles throughout the country, the office of the QUARTERLY has had a satisfactory year. It is true some extra burdens were put on the office because of the conditions referred to above, when certain checks were returned to us marked, "No funds," or when appeals for special consideration in the ordering of North Central Association publications were made; but these annoyances were after all few in number and of minor importance.

An analysis of the statement of Receipts and Expenditures (which is hereto

attached) shows the total income of the QUARTERLY office for the fiscal year extending from March 1, 1933 to March 1, 1934 to be \$2235.84 and the total expenditures to be \$2071.86. Returned checks account for an additional item of expense amounting to \$43.25. Of the receipts \$1750.00 were turned back to the General Treasurer of the Association.

By far the largest source of income during the year has been the Association's book, *High School Curriculum Reorganization*. Members of the Association will recall that this book came from the press almost exactly one year ago. The edition totaled 2000 copies. Of this number 1267 have been sold, realizing (gross) \$1345.90. The Editorial Office has, therefore, still on hand 733 copies of this book. Since, however, more sales of it are made nearly every day, the entire edition, it is thought, will soon be exhausted.

It is perhaps fitting to report that the judgments of educators regarding the merits of the publication have been gratifying in the extreme. Some excerpts from book reviews and from personal letters received have appeared in the QUARTERLY from time to time throughout the past year. Additional statements of like laudatory nature could be printed in considerable numbers. Probably, though, the book has been given all the advertising it requires.

Although, as indicated, the total income of the QUARTERLY office has been considerably larger than in previous years the receipts other than from the book sale have been \$261.68 smaller than in the year 1932-33. No doubt the general economic depression of the country is, in part, the cause of this diminished income. However, other factors have also been at work. In particular the action of the Executive Committee and of the Editorial Board in reducing the price of the QUARTERLY from \$5.00

to \$2.00 to all individuals connected with the Association's accredited institutions, and from \$3.00 to \$2.00 to all libraries, accounts in large measure for the diminished income. Further, the sales of old Proceedings of the Association, the sales of separate curriculum reprints, and the sales of Faculty Record Blanks have fallen off nearly to the vanishing point during the year.

And yet, despite all negative forces at work the record of the QUARTERLY is gratifying. Each three months 5000 copies have been printed and distributed. As is well known, most of these copies are sent gratis to the various institutions that comprise the membership of the Association. Nevertheless, we do have about 250 paying subscribers, and we do mail out a goodly number of copies of the QUARTERLY to individuals who are officers of the Association and its sub-units.

#### FINANCIAL STATEMENT OF THE QUARTERLY OFFICE

March 1, 1933 to March 1, 1934

##### *Receipts*

|  |            |
|--|------------|
| Subscriptions to QUARTERLY, sale of single copies, and <i>Proceedings</i>                      | \$ 759.65  |

**AUDITOR'S REPORT**

To Dr. H. M. WRISTON  
 President, North Central Association  
 of Colleges and Secondary Schools  
 Appleton, Wisconsin

*My dear President Wriston:*

In accordance with a request of Professor C. O. Davis, Managing Editor of the NORTH CENTRAL ASSOCIATION QUARTERLY, we the undersigned, have this day audited the books of said Editor for the fiscal year ending March 1, 1934, comparing receipts with bank deposits and the cancelled vouchers with the bank withdrawals. We find the accounts of the Quarterly office to be in exact accordance with the bank report, indicating a total receipt (with the amount carried forward March 1, 1933) of \$2,569.96, less total expenditures as of March 1, 1934 and returned checks of \$2,115.11, leaving a bank balance of \$454.85 as of March 1, 1934.

It is perhaps pertinent to note that while the total income of the Quarterly office for the

fiscal year March 1, 1933—March 1, 1934 is greater by \$1084.22 than it was for the previous fiscal year, this increase is chiefly creditable to the account of the Association's book, *High School Curriculum Reorganization*. If the receipts from the sale of this book be deducted from the total receipts of the Quarterly office, the income of that office for the current year falls short of the income for last year by \$261.68. This decreased income is however, readily explainable on two counts, namely, (1) fewer sales of single copies of the QUARTERLY, of old Proceedings, of curriculum reprints, and of Faculty Record Blanks in 1933-34 than in 1932-33, and (2) the reduced prices at which the QUARTERLY has been sold during the current fiscal year. (Formerly subscriptions were \$5.00 to all individuals, and \$3.00 to all libraries. By vote of the Executive Committee and of the Editorial Board the present charges are: to all libraries and to all individuals connected with North Central Association accredited institutions \$2.00; to all others, \$5.00.)

Respectfully submitted

GEORGE E. CARROTHERS

IRA M. SMITH

Ann Arbor, Michigan  
 April 11, 1934

## MINUTES OF THE ANNUAL MEETING<sup>1</sup>

### FRIDAY AFTERNOON SESSION

THE opening session of the Thirty-ninth Annual Meeting of the North Central Association of Colleges and Secondary Schools, held at the Stevens Hotel, Chicago, Illinois, April 18-21, 1934, convened at one fifty-five o'clock, Mr. H. M. Wriston, President of Lawrence College, Appleton, Wisconsin, President of the Association, presiding.

*President Wriston:* Will the Thirty-ninth Annual Meeting be in order? This program is provided by the Commission on Unit Courses and Curricula. Before calling upon that Commission, however, for its program, I will announce the appointment of committees required by the Constitution. First, an Auditing Committee: Colonel F. L. Hunt, of Culver Military Academy; Mr. A. A. Reed, University Examiner of the University of Nebraska, at Lincoln, Nebraska; President I. N. McCash, Phillips University, Enid, Oklahoma.

Nominating Committee: Mr. M. R. Owens, Chairman, State Department, Little Rock, Arkansas; E. E. Morley, Principal, High School, Cleveland Heights, Ohio; John L. Seaton, President of Albion College, Albion, Michigan; L. A. Pittenger, President of Ball State Teachers' College, Muncie, Indiana; and James E. Blue, Principal of the Rockford Senior High School, Rockford, Illinois.

At this time I will call on Mr. Clevenger, Secretary of the Association, for the report of the Executive Committee. Mr. Clevenger. [Secretary Clevenger read the report which follows.]

<sup>1</sup> These minutes, slightly edited, were taken by Stenotype during the sessions of the annual meeting in Chicago, April 20-21, 1934.—THE EDITOR.

Since the time of the 1933 Annual Meeting, the Executive Committee has held meetings as follows: April 22, 1933; June 16, 1933; November 18, 1933; April 18, 1934; and April 20, 1934. Two more meetings of the Executive Committee are scheduled during this Annual Meeting, one this evening directly following the Annual Banquet and one on Saturday afternoon, April 21. It will be of interest to the members of this Association to know that all of these meetings of the Executive Committee have been well attended by its members.

The Secretary of the Association does not care to burden the members of this audience with a long and detailed report of the activities of the Executive Committee. During the time between the Annual Meetings, the Executive Committee has exercised great care in performing the duties which have been prescribed by the Constitution of this Association.

There are certain items of business which according to the constitution must be brought before the Association for action by the Executive Committee. In order to make these meetings more interesting, the Committee has followed the plan of having those matters which it must bring before the Association for action presented by different representatives of the Executive Committee. The Secretaries of the Commissions concerned will represent the Executive Committee in presenting to the Association standards for the accrediting of secondary schools and institutions of higher education as submitted by the Committee to the Association for approval or rejection. The Treasurer of the Association, Mr. McComb, will represent the Executive Committee in presenting a detailed report of income and expenditures.

In accordance with the Constitution, the Executive Committee shall nominate members of the various Commissions subject to election by the Association. It is the duty of the Secretary at this time to present to the Association the nominations of the Executive Committee. They are . . . [Secretary Clevenger here read the lists of names proposed as members of the commissions.]

*Secretary Clevenger:* Mr. President, I move that this report be accepted and

that the members of the various Commissions as nominated by the Executive Committee be elected by this Association.

*President Wriston:* The motion is seconded. Do you wish to discuss it?

If not, those in favor will say "aye"; opposed, "no." The report is accepted and the persons named are elected to the several Commissions.

Usually the Secretary of each Commission reads its report. The Secretary of the Commission on Unit Courses and Curricula is present but his voice is not. Therefore, the report will be read by the Chairman, Mr. Thomas M. Deam, of Joliet Township High School and Junior College. Mr. Deam. [Mr. Deam presented the report of the Commission on Unit Courses and Curricula, which follows:]

The purpose of the Commission on Unit Courses and Curricula is stated in The Constitution, "The Commission shall plan and carry forward research relating to Unit Courses of study in various subjects and curricula, in all classes of Secondary Schools and Institutions of Higher Education included within the Association."

Research in this Commission has been pretty largely confined to the study of activities that should enter into the curricula of the secondary schools. Many times reference has been made to the reports which appeared in the 1927, 1928 and 1929 numbers of THE QUARTERLY. Studies were made in practically every subject field of secondary education. Later a revision of these subject reports was made and incorporated into a book under the title of *High School Curriculum Reorganization* (1933).

This present year, in keeping with the purpose of the Commission, reports of investigation of four different kinds have been carried on.

Reports were received of progress made in the reorganization of curricula in several individual schools of the North Central Association, under special arrangements with higher institutions to the end that certain chosen individuals be permitted to enter higher institutions, without having to meet the usual college requirements. These reports represent the progress to date in North Central Association schools which are cooperating in the program

of the Progressive Education Association. This report is to be given by the speaker who follows me.

The second report was on a Survey and Trend in Curricula Revision in North Central Schools. This study constitutes an investigation of reports on questionnaires submitted to representative high schools and to an intensive study of the problem of high school post graduates in Illinois. An intensive study also was made of the effect of change in the University of Illinois entrance requirement and to a detailed analysis of 300 courses of study.

The third major report of the Commission this year was a continuation of the work which has been carried on under the Committee known as Curriculum Reorganization, and which furnished the basis for the book of the Association known as *High School Curriculum Reorganization*. Special studies in two fields have been made during the past year: one relative to art concepts by Professor W. G. Whitford, of the University of Chicago; and one relative to procedures effective with dull pupils, by Professor Raleigh Schorling, of the University of Michigan.

The fourth field of study reported before the Commission, had to do with what the Commission has been naming "Functional Units." This report consisted of instances where attempts were made to connect life situations with curriculum materials. The Association may be interested in the program mapped out by the Steering Committee for the Commission next year. After the meeting this morning, which adjourned rather late, the officers of The Commission, together with the Chairmen of five major committees of The Commission, drew up brief statements regarding the policies which should govern the work of the several committees for the coming year. I shall attempt to set forth these policies in the few minutes remaining.

1. The Committee on Status and Trends of Curricula in North Central Association High Schools proposes to continue investigations of attempts at curriculum revision and analyses of curriculum material which have been submitted to The Committee. They propose to make the office of Professor J. A. Clement of the University of Illinois, serve as a clearing house for desired information on curriculum revision.

2. The Committee on Functional Units proposes to continue the study of materials of instruction organized on the basis of general objectives, rather than on the basis of subject division units.

3. The Committee on Experimental College Entrance Requirements proposes to report again next year on further progress of the work of the individual schools which are co-operating with The Progressive Education Association.

4. The Committee on Studies in Certain Curriculum Fields will be more or less an omnibus committee. In addition to completing certain studies which have formerly been entered upon, the committee will make a study of the effectiveness of a general mathematics class (students of commercial curricula in the high schools, for example who have not studied mathematics in the high school) in the University of Nebraska.

5. The new Committee on Patterns of Academic Training for High School Teachers whose work has been assigned to it by the Executive Committee, proposes to study the value of specialization by teachers in the various university subject fields.

As has been the custom in the past, we are presenting to the Association, an example of the type of the work of this Commission. Principal H. H. Ryan of the Wisconsin High School, of the University of Wisconsin is to present his report on Experimental College Entrance Units.

[Dr. Ryan read the report<sup>1</sup> of the Committee on College Entrance Units.]

*President Wriston:* The Constitution of this organization states that the Executive Committee shall have power to authorize approval of expenditures of funds. Each Commission shall submit to it a budget of proposed expenditures. The Executive Committee shall submit a detailed report of income and expenditures at each annual meeting.

The report of the Treasurer, Mr. E. H. K. McComb has been presented to the Executive Committee and was approved by that committee, and on behalf of the Executive Committee Mr. McComb will now make the report.

*Treasurer McComb:* In gathering in the funds of the Association the Treasurer's office has been in touch with 2523 membership high schools and 66 others. In addition, we have been in contact

with 290 higher institutions. All of the high schools except twelve have been able to pay their fees. One college and one teachers' college have not yet been able to pay their fees. The rest of the membership is in the clear with the Association financially. It is hoped that these fourteen institutions will be able to make their payments during the coming year so as not to have to be dropped according to the provisions of the Constitution.

The work of the Association goes right along. The Annual Meeting is but an incident in the course of the year. The finances of the Association show this. The report I shall read will pick up the balance given you last year at this corresponding time and will give you the picture as of April 1. I shall not stop to read the odd cents of the various items. [Treasurer McComb read the Financial Statement as follows on pp. 18-19.]

*Treasurer McComb:* I suppose you wonder why an organization like this has any bank stock. We had some funds in a bank that became involved. In the reorganization plan set up by the government it was necessary that all depositors make some subscription to the stock of the reorganized bank. On competent legal advice and on direction of the Executive Committee the Treasurer, as trustee, subscribed for the shares of bank stock necessary to protect our funds in the reorganization of this bank. The certificates of participation represent the amount of money still remaining in this bank not yet available for checking purposes.

The accounts of the Treasurer are audited by a certified public accountant and this audit is presented to the Auditing Committee of the Association appointed by the President, and the books of the Treasurer are also placed in the hands of that committee for their inspection.

<sup>1</sup> This paper will be published in the QUARTERLY at a later date.—THE EDITOR.

## FINANCIAL STATEMENT—TREASURER'S OFFICE

April 1, 1933 to March 31, 1934

1932-1933

|   |             |

|---|--------------------|
| <b>TOTAL EXPENDITURES TO DATE FOR 1933-1934 .....</b> | <b>\$23,312.30</b> |
| <b>BALANCE ON HAND April 1, 1934 .....</b>            | <b>\$28,400.86</b> |

*This balance is made up as follows:*

|   |             |
|---|-------------|
| Checking account bank balance .....                             | \$18,645.02 |
| Invested funds—Mortgage certificates (par \$2,000.00) .....     | 2,020.00    |
| American National Bank stock .....                              | 1,800.00    |
| A.N.B. certificates of participation .....                      | 4,485.84    |
| Revolving funds in the various offices of the Commissions ..... | 1,450.00    |

\$28,400.86

This completes the report of the Treasurer on behalf of the Executive Committee.

*President Wriston:* The Constitution further provides that this report of the Executive Committee shall be referred to an Auditing Committee appointed by the President. The Chairman of that Auditing Committee is Colonel Hunt, who will now report.

*Colonel F. L. Hunt:* Mr. President and Members of the Association: I will say that the Auditing Committee was very much impressed by the fact that we have a Treasurer who makes investments that almost 100 per cent have shown a profit to date. We are hoping the bank stock investment will do the same. [Colonel Hunt read the report of the Auditing Committee, as follows.]

*To the Members of the  
North Central Association:*

The members of the auditing committee, appointed by the president, have examined the audits of the accounts of the treasurer as made by George S. Olive and Company, certified public accountants of Indianapolis, Indiana. According to the decision of the Association this audit covers the fiscal year from July 1, 1932 to June 30, 1933. The auditor's report shows that on June 30, 1933 there was a balance in the hands of the treasurer in the amount of \$19,125.45. This amount compares with a balance on July 1, 1932 of \$17,479.67.

Since the close of the fiscal year other transactions conducted by the treasurer of the Association bring the present status of the balance as of April 1, 1934 to \$28,400.86.

The unaudited account of the treasurer shows that the North Central Association has received to date from the General Education Board \$107,528.97. Of this amount the total expenditures to date are \$97,734.88, leaving a balance in the fund April 14, 1934 of \$9,794.09. The General Education Board funds are carried as an account separate from the regular North Central Association funds.

The auditing committee would like to concur in and even go beyond the comments of the auditing committee of last year in expressing the appreciation of the work which the treasurer performs for the Association. The books, accounts and investments appear to be

in admirable shape so that even a lay committeeman may understand.

Respectfully,  
F. L. HUNT, *Chairman*  
I. N. McCASH  
A. A. REED

April 19, 1934

*President Wriston:* The house organ of the North Central Association is the QUARTERLY. I will now call upon the Editor of the QUARTERLY, Mr. C. O. Davis, of the University of Michigan, to make a report.<sup>1</sup>

*President Wriston:* It is required by the Constitution that the Nominating Committee shall be appointed before this time and that it shall make its report at the first session of the Association's meeting. Those nominations will then lie upon the table until tomorrow afternoon at which time the election will take place.

I will call, therefore, upon the Chairman of the Nominating Committee, Mr. Owens, to make the report for that body.

*Mr. M. R. Owens* (State Department of Education, Little Rock, Arkansas): Mr. President and Members of the Association: As Chairman of the Nominating Committee, in submitting the report this afternoon I don't feel called upon to make any lengthy comments or remarks in introducing the nominees submitted to this Association, for they are all well known to you.

As you know, it has been customary for many years past to alternate the Presidency as between the Secondary and the Higher Commissions, and next year is the year for this recognition to be accorded the Secondary Commission.

In view of the situation in the Association particularly relating to the standardization movement in the higher institutions and a similar move which is under way to recast the standards for secondary schools, we felt that it was extremely important that we have a man

<sup>1</sup> This report appears elsewhere in this issue.—  
THE EDITOR.

who has the viewpoint of both the higher institutions and the secondary schools.

We have selected, therefore, and are presenting the name of a man who is well known to you, who is a member of the Secondary Commission and also a member of the Higher Commission.

For President: B. L. Stradley, of Ohio State University.

I might add in this connection that in keeping with the spirit of the New Deal we seem to have smashed a precedent in nominating for President a Vice President, so the Vice Presidency did not, at least in this instance, prove to be a burial ground. The Nominating Committee was not aware of that fact, however, until the agreement had been reached.

For First Vice President: R. M. Hughes, of Iowa State A. and M. College.

For Second Vice President: L. N. McWhorter, Assistant Superintendent of Schools, Minneapolis, Minnesota.

The Constitution also provides that two nominees for membership on the Executive Committee shall be presented. The terms expiring this year are those of F. L. Hunt, of Culver Military Academy, and Dean J. E. Stout, of Northwestern University.

To succeed Mr. Hunt we are submitting the name of Principal E. A. Spaulding, of the Emerson High School, Gary, Indiana; and the name of Professor W. C. Reavis, of the University of Chicago, to succeed Dean Stout.

*President Wriston:* The Constitution further provides that nominations may be made upon petition by any ten members, which must be filed with the Secretary of the Association.

All of our speakers upon the general program this year are members of the Association. This afternoon we are to hear from Dr. Will French, Associate Superintendent of Schools, Tulsa, Oklahoma, who will speak upon "A Senior School Program for Our Developing Society." Dr. French. [Dr. Will French read his prepared address.<sup>1</sup>]

*President Wriston:* The second general session of this Association will be held this evening at six o'clock and the third general session tomorrow morning at nine o'clock. We wish to begin all of our sessions punctually and if those who are attending will attend to that we will be through promptly. We are adjourned. [The meeting adjourned at three-forty o'clock.]

<sup>1</sup> This paper will be published in a forthcoming issue of the QUARTERLY.—THE EDITOR.

## HIGHER EDUCATION AND ITS PRESENT RESPONSIBILITIES<sup>1</sup>

L. D. COFFMAN  
*President of the University of Minnesota*

SO LONG as we lived in the halcyon days of individualism, of frontier life, of artisan trades and of small shops, we felt secure and refused to believe the prophets of change. We were aware of the growth and spread of corporations, but we did not fear them. We knew that opportunities for youth were being curtailed, that millions were becoming employees rather than their own masters, that the financial structure of society was becoming more and more highly centralized, that industry was industrialized, that the very nature and practice of life were being revolutionized while the philosophy of life remained practically unchanged.

The changes now occurring in America are more radical than any one thought possible ten years ago. The Government now controls or regulates banks, insurance companies, stock markets, packing houses, railroads, business of all kinds; and agriculture—the last stronghold of individualism in America—has now become government supervised and directed.

No one can tell where these movements will carry us. Certainly every phase and kind of institutional life will be affected by them. The schools surely will take on new life and assume new responsibilities as a result of the program of recovery. One of these responsibilities has direct reference to youth. For a time they were forgotten—schools were closed, millions of students were turned loose upon the streets, subjects were

eliminated, costs curtailed, teaching positions sold to the lowest bidder, and the morale and high professional spirit which had been slowly developed through nearly a hundred years of patient, devoted and high-minded effort, were wrecked. The tragedy of the situation was slowly borne upon us as hundreds of thousands of these youth became waifs in the great open stretches and as the statistics revealed that increase in crime in America was almost entirely in the age groups of adolescent youth.

Idleness is as much the devil's workshop as it ever was. It has still other disintegrated characteristics. A hasty survey made in one of the midwestern states showed that a majority of last year's high school graduates were anxious to go forward with their schooling; the same was true of the graduates of two years ago; a smaller percentage of those of three years ago were ambitious to continue their education; and almost none of those of four years ago cared to go to school again. Apparently in four years' time, neglected and unemployed youth became resigned to the situation.

These facts and others of a similar nature stimulated Federal and State governments to give special attention to the needs of youth. The teachers of America had already responded to the call and were doing double, treble and quadruple duty. Children were being brought back to school; high school enrollments increased; college enrollments nearly held their own; and courses in civic, general, and vocational education were established by government action in thousands of communities in this country.

<sup>1</sup> An address delivered before the Association in Chicago on Saturday, April 21, 1934.—THE EDITOR.

It has taken time for us to understand that economic recovery will be fruitless if we destroy the educational birthright of the children while we are achieving it. The sentiment is now almost universal that the education of children cannot be neglected unless society is to pay a heavy penalty for its neglect fifteen or twenty years from now. Political leaders, too, have realized that whatever there may be of democracy in the new social order can be preserved and advanced only as democracy deliberately provides sound education for the next generation.

Upon higher educational institutions in particular there rests the responsibility of providing opportunity for every aspiring and capable youth who may seek to equip himself for larger usefulness in society. The struggle for human existence will become more intense; the need of more highly trained leadership more imperative.

The responsibility of higher education will not be confined to youth; it will be concerned with millions of adult citizens who have now suddenly come into possession of an enormous increase of free time. To be sure the shortening of hours of labor has been going on for generations. Invention forced it. Now, however, it is speeded up by government action. The codes prescribe definite schedules of hours. Great numbers of workers are being cast out upon their own resources. They are at a loss to make the adjustments necessary to use their free time profitably. Whether this extra human time shall become an opportunity to advance civilization or whether it will become a menace to social progress, is a matter of the gravest importance. Our sociologists have told us, in the past, that every time the curve of leisure has risen, there has been a corresponding increase in the curve of crime. They have also declared that methodical labor has been the chief substitute for crime. But

now there will be a minimum amount of methodical labor and an enormous increase of spare time. In this situation lies an opportunity, a new, an alluring, a challenging opportunity, for educational statesmanship and for the training of a new generation of educational leaders and teachers.

There are other aspects of the national program which will affect education. The new deal has been described as a struggle between individualism on the one hand, and collective action, chiefly through the Government, on the other. Although the American people have not been clear as to what this program means, they have with great unanimity accepted it as an experiment, and vast numbers of them have become intense advocates of it. So intense has the spirit of advocacy become that criticism of the program has been stigmatized as unpatriotic. But some criticism there must be if we are to build sanely and safely for the future. Without intelligent and friendly criticism, some virtues of the passing era may be overlooked and some of the tendencies now current in the new program may become too firmly and deeply established for the good of the country. It would be a misfortune to recover economic prosperity if we lost all of that spirit which built America. It would be a misfortune for Government to become tyrannical. Tyranny is a mockery to a free people. On the other hand, unbridled individualism must never be permitted again. We have paid a heavy enough toll to this philosophy through the loss of our savings, the machinations of unscrupulous barons of industry and finance, and the corruption of political leaders, ever to seek a return to the Golden Era of the past. In uttering this indictment I do not mean to imply that there were no socially-minded industrial or political leaders in the world in the past; there were many who saw clearly what was

ahead, but we refused to listen to them.

The national program which seems to have come with such suddenness has in some respects been under way for a long time. Individualism has been steadily losing ground for many years. A conspicuous illustration of this is seen in the change that has been occurring in the thinking of people as to property and property rights. All property at one time was regarded as private property. One could do with it as he wished. Gradually things that people enjoyed privately began to be extended to the public. Private schools, for example, became public schools; private libraries, public libraries; private parks, public parks. In the course of time all those industries that supply the necessities of life began to be regulated in the interest of public welfare. And now it is claimed that every branch of industrial enterprise, regardless of its ownership, has a direct relation to the welfare of the community. In the management of industry we are replacing private initiative and individual discretion with codes which govern such matters as production, profits, prices, wages and hours of labor.

This is a risky experiment in which we are engaged. The great body of people do not understand what it is all about. Indeed, it is doubtful if any see clearly to that end. The placing of so much power in the hands of politicians is always fraught with grave danger; we fear them because we know them.

On the other hand, it is clear that we can no longer pursue the policy of drift. We have waited on time and circumstance too long already. Business has refused to regulate itself. The masses have waited impatiently for relief and better conditions which failed to materialize.

Another danger inherent in the new program is that there will be a great expansion in the number of government

officials necessary to carry the plans into action. These government officials should be more expert, better trained than government employees usually are. Hitherto we have chosen men for public office largely because they belonged to a given political party. We used patronage to pay political debts. Men have been chosen without sufficient regard to their competency or fitness for public office. This has been almost as true of those who filled appointive as of those who filled elective offices. Whether we can take the graft out of politics and insure competency and efficiency in public administration, represents one of the severest tests to which the new program will be put. England did it; perhaps we can.

Public service should become a skilled profession. The regulation of the complicated and technical processes of industry, the construction of public works, the direction of commerce, the promotion of trade, the supervision of the nation's system of credit and banking, call for a trained personnel of the highest competence. In the training of men and women for careers in public service lies a new opportunity for the colleges and universities of the country. Where there was one person engaged in public administration and public service in the past, there will be many in the future. Every kind of professional life that in any fundamental way serves the interests of people in general, will receive a new impetus from the new program. Necessity will demand a higher quality in all forms of public work. Whatever confidence may repose eventually in a Government which lays the slightest claim to democratic ideals and to democratic principles, will depend solely in the long run upon the competence and the disinterested quality of service its leaders give.

It will not be enough for the higher

educational institutions of America to provide training for leadership in public service. They must help to educate the people of the country as to the importance of this training, for there are still many perfectly good citizens who think that the barber, the baker, and the candle-stick maker are qualified for public office.

And, perhaps, a warning may be given to the college professors who are now helping both State and Federal Governments to carry forward their programs: It is that professors shall do the things they are qualified to do and not allow themselves to be drawn off into kinds of administrative responsibilities for which they have no qualifications. Otherwise we may have a reaction against the "intellectuals" in public life that will be as bitter as was the reaction against the intellectuals in the early part of the nineteenth century.

Thus far in this discussion I have called attention to the need of expanding our educational facilities so as to encompass all the needs of youth and the needs of all youth, so as to provide education and a new type of teacher for adults during their free time, and so as to provide training for leaders in public service. The mere assembling of these points makes it obvious that the structure of education will be changed and that the materials of instruction must be rewritten. The schools have not failed in the past so much as some other institutions have failed, but it cannot be claimed that they have marched forward with the changing needs of society as rapidly and as effectively as they should. Although sensitive to the prevailing spirit of the times, they have nevertheless to a certain extent lagged behind the needs of the times. Now they are at the beginning of a renascence of learning which calls for the consideration of and the rewriting of many of the materials of instruction.

The higher education institutions have a responsibility to assist in this important matter. Their scholarship and facilities for research must be made available for the study of programs of instruction.

Students are asking for information about dozens of things fundamental to their existence that are not now taught to any considerable extent by the schools. Students want to know about money, exchange, the gold standard, foreign debts, stabilization of currency, tariffs, trade quotas, commerce,—in fact about all those things that affect their material welfare. They are asking for information about foreign policies and international relations. They are asking what Communism, Facism, Nazism, Constitutionalism, Democracy really mean. They are seeking light on the national program of recovery. At every turn we find the youth of this country impelled by the pressures of necessity, as well as by the shifting scenes of social action, demanding information about things which they have been denied. Surely this is a demand which cannot be ignored. It offers an unparalleled opportunity to capture the imagination of youth and to lead it, through the processes of education, to decide issues and to solve problems in the light of facts and tested opinions.

The higher educational institutions have a still further responsibility of preparing materials along these same lines for the adult population of America. But they must not confine their programs for adults to materials of this character. The adult program will concern itself to some extent with matters pertaining to economic affairs—it cannot escape giving attention to such matters—but the demand on the part of adults for contact with art, literature, music, and other humanizing forces of life will grow in volume and in momentum.

A thousand agencies in America are

trying to do something in the field of adult education. Fortunately none of these programs has jelled,—it is to be hoped that none will, at least for a time. The place and part of our higher education institutions in this movement is not yet clear. But they cannot escape their responsibility. They will not undertake to do so. On the contrary, they will look upon it as a challenge and an opportunity.

In a time of flux, in a time when economic foundations are insecure, men are likely to grasp at expedients in their efforts at recovery, and to ignore and forget many of the most fundamental things of life. It is so now. We are tinkering with many things and experimenting with all sorts of programs. We dare to disregard well known principles in order to try something which we think may help us out of our distress. We call upon the schools, and particularly the colleges and universities, to deal with a multitude of things near at hand. We ask for researches today to solve our problems for us tomorrow. We are impatient of delay and critical of prophecy.

What responsibility, if any, does higher education have in stabilizing this situation? The responsibility it has always had—that of remaining calm and unemotional in its consideration of the various problems arising out of the situation; the responsibility of not allowing its resources to be dissipated in so-called researches of a temporary and immediate nature.

I have recently had occasion to make a somewhat hasty study of a number of other depressions. In each instance the people, I found, were easily led to try new experiments. They said, "Let's try something," and try something they did. While the people were hurrying hither and yon in their frantic and sometimes misguided efforts to help themselves, there was, in the colleges and universities,

a population that was subjecting every theory to scrutiny and every program to a careful examination.

Furthermore, I found that the men in higher educational circles who devoted themselves faithfully to researches of a fundamental nature,—to researches whose use they could not understand, nor see, nor appreciate at the time,—were the men who really made the most distinctive contribution to recovery and to civilization. Now is the time, if there ever was a time, when we should encourage pure research, research for its own sake, research that is conducted simply for the sake of discovering the truth. The universities of America have a far greater responsibility in holding fast to this position in the present crisis than they do in lending aid to every movement that may be advanced for recovery.

By this I do not mean to say that they will give no attention to studies of immediate value or that they will not cooperate in manifold ways in helping the Government. I merely wish to emphasize (and with all the power at my command) that they should not allow themselves to be diverted from their main task. It is only by holding fast that public interest in the long run will be served.

I should now like to turn my attention to another chapter on the effect of the new deal on higher education—a chapter in which I shall refer to some matters of a different nature. Attention has already been called to the fact that the Government through the exercise of its taxing power will probably make the accumulation of vast fortunes impossible in the future. It seems reasonable to presume that taxes will never be less; they are more likely to be higher. There will be expenditures for the unemployed, for public works, and for new social programs as well as for a number of other

kinds of new government services. Certain dangers inhere in this situation. The process of levelling down fortunes for social good may mean fewer comforts, less variety in food, less attention to dress, a lower scale of living generally. If so, then that would be a misfortune. If we go too far we shall duplicate a situation I saw in New Zealand where incomes have been taxed to such an extent that there are almost no private funds left for charity, for education, or for religion. When a New Zealander desires support for any of these activities, he goes to the Government. The extreme socialization of New Zealand has taken away from her something which we have hitherto regarded as very precious to our life.

Another outcome of the heavy taxation of wealth will mean that there will be fewer private gifts of consequence for colleges, universities, libraries, museums, and charity. Colleges and universities will find it increasingly necessary to rely upon tuition rather than upon gifts for support. College endowments will not grow in the days ahead as they have grown in the past.

With the people taking possession of wealth for their own use and welfare, it will be interesting to observe to what extent they will be willing to spend it upon tax-supported colleges and universities and upon other tax-supported humanitarian institutions. Unless democracy is willing to spend generously for the training of its own leadership, it is doomed both as a matter of theory and as a form of political control.

There are a number of other important questions that relate to higher education that could be raised and that must be answered eventually. Some of them are, What will be the effect of the new deal upon college enrollments? Will admission to college be more a matter of selection in the future than it has been in the

past? What will be the effect of the new deal upon the attitude of college students toward study; will they be more serious? To what extent must colleges merge and to what extent should there be an allocation of functions and of work distributed among them? The answers to those questions may be deferred.

There are others, however, of a different character to which consideration must be given during the entire period of reconstruction. Some of these are questions that appear to touch higher education only incidentally but they are, I think, none the less vital for that reason. They are moral questions. They grow directly out of the Federal program. They inhere in the program. In mentioning them I do not mean to criticize the program, but attention should be called to them so that we may do something about them, if possible. The first of these is found in efforts that the Federal Government has made to feed, clothe, and house the hungry and the distressed. Surely no one would criticize this effort. And yet it is leaving in its wake a large number of relief-minded people; some of whom have been on relief; others of whom are trying, but do not deserve, to be placed on relief.

Another moral disintegration situation arises out of the moratoriums on debts that have been declared by local, state, and national governments. No stigma now attaches to one who fails to pay his debts or his taxes. To be unable to meet one's obligations is a serious thing; wilfully to disregard them is still more serious.

Surely no Government can survive unless its constituents have a high sense of personal responsibility and of moral obligation. When obedience to law becomes a personal matter, and the payment of taxes and debts a personal privilege rather than a social obligation, then we become a nation of self-seekers. The

forces of disintegration will slowly but inevitably destroy us. No social structure can grow in strength and in influence when its individual members depend upon the other fellow to support it.

In these moral problems—attention is called here to only two—there comes another challenge, for it is something new for Americans not to regard their word as good as their bonds or as gold. In the new order of society there must be a new class of social Puritans—men and women endowed with zeal for and dedicated to the preservation and advancement of moral virtues of the highest order. Has higher education nothing to contribute to the endowment of men and women with ideals or will it continue to say that its sole responsibility resides in training the intellect?

I cannot pass on to the last topic I wish to treat without calling attention to the fact that the program of the Federal Administration thus far has accentuated economic nationalism. This, so it seems to me, is the road to national suicide. It is a road which leads, as surely as fate, to peasantry on the part of many of our working people and of many of our agriculturists. Secretary Wallace is right, "America must choose." Thus far she has chosen. Intergovernmental debts have not been disposed of; world currency has not been stabilized; tariffs have not been modified,—although these problems must be solved before there can be a return of permanent prosperity. We are still adjusting things and priming the pump—all of which will help temporarily, but will not solve our problems for us permanently.

More attention must be given sooner or later to the interdependence of the nations of the earth. It would seem that the political leadership of the country would give instant and continuing attention to this matter, for it is in a position to understand more fully than the

masses, how important international understanding really is to the peace and prosperity of the world. The higher institutions of learning of this country may help also. Let them set themselves resolutely to the task of instructing the youth, and the older generation if it will listen, about international affairs. Shall we forget the lessons which the war should have taught us? Shall we forget the lessons which the depression should have taught us? Shall we continue to build around ourselves walls behind which we hide in seclusion, fomenting new forms of hate and laying the basis for new world wars? Surely the colleges and universities of America will be inspired to teach with the greatest vigor, lessons that make for peace, economic prosperity, amity and mutual understanding among the nations of the earth. If the Government fails in its responsibility in this matter, let it never be said to the shame of the colleges and the universities that they failed to discharge their highest educational responsibilities in these respects in the present crisis.

And this brings me to the last point that I wish to make. It is more important than all of the others put together. It has reference to the effect which naturally flows out of every attempt to regiment anything. One of the chief features of the new deal is to substitute for free competition a planned industrial economy under Government control. Government regulation, wherever it is set up and especially if it orders or regiments life, necessarily affects every type of institution that it touches. It takes away the freedom and right of control from institutions. It becomes, or is likely to become, a sort of credal political philosophy. We cannot review a social order of this nature without asking, To what extent can the schools be free in a society planned and regulated by Government action? There are those, I know, who

say that the schools should not be free at all. They maintain that the schools are the creature of the Government and that they must do what the Government tells them to do.

It is a notorious fact that wherever dictatorships have existed, there has been little or no intellectual liberty. Academic proscription of the severest sort now prevails in Germany. It has existed in Italy since Mussolini came into power, and in Russia since Stalin and the Communist Party rose to eminence following Kerensky and the Czar. The scholars of the old world are living in exile. Genuine scholarship and intellectual freedom do not exist in any of those countries in which there has been a rigid regimentation of life. The political theories of the ruling power must be taught in the schools everywhere. Scholars must become proponents of those theories. Men who prize their intellectual integrity have been driven from their homes; they have become wanderers on the face of the earth; they are to be found living in poverty, in attics, in distant countries; they have no future; whatever they may have saved has been destroyed and whatever opportunity they may have had to contribute to human learning, is now denied them. These countries will skip one generation at least in the advancement of human learning. And why, one may ask. To the answer to this question every thinking person in this country should address himself, for we feel that what has happened to scholarship and intellectual liberty in Italy, Germany, Russia, Roumania, Czecho-Slovakia, Hungary, and Japan cannot happen to us in America. And yet there are those who remember how great scholars have been driven from their posts in this country.

When professors become serfs to the dominant political opinion, then the foundations of civilization rest upon an insecure footing. The scholar, so long as

he discusses matters upon which he is an acknowledged scholar, should never have cause to fear anyone except the criticism of his peers. But, you say, why spend time discussing this matter? The days of E. Benjamin Andrews, Richard D. Ely, John R. Commons, E. A. Ross, and others, are gone. The hysterical days of the late war are likewise gone. Efforts on the part of the dominant political party in a number of states in recent years are but mere effervescences. There is no disposition to control education today. When we make these statements we speak without a knowledge of the facts, or at any rate without regard to some of the circumstances in our situation. Intellectual liberty is in peril in America. It is in danger of falling prey to the fires of party passion, to the interests of special groups, and to new pressures flowing from the national program.

The only sure way of cooling the fires of party passion, of abating the demands of special groups, and of insuring the success of the new deal, is to exalt and to encourage scholarship on every hand. The public schools and the universities must never lose sight of the fact that their full responsibility is discharged when their students are taught to be free thinking, free-acting, independent persons. Nor must they lose sight of the fact that every movement to indoctrinate youth with certain social theories or with a certain kind of political philosophy, is subversive to the traditions and principles of a democratic society.

In days when national programs are creating new pressures, when emotions are running high, when they oftentimes call for submission in the name of patriotism, when great nationalistic philosophies are imperilling intellectual freedom everywhere, when forms of coercion as effective as arms are directing thought and controlling human action, how

important it is that we in America preserve free and undefiled the citadels of learning!

There is no intelligence where there is no self-direction. In a world turning black through the spread of dictatorships and other forms of militant nationalism, liberty and human rights are again in danger. They will be preserved only as the spirit and essence of learning are preserved. Regimented scholarship means intellectual feudalism. Civilization will depend upon what we do when we are free and upon the freedom we possess to seek new knowledge and to express ourselves, rather than upon what we do when we are at work. Civilization will move forward only where the search for truth is unhampered and where human action is based upon cooperation rather than upon compulsion.

One thing is certain, we cannot remain apart from changing life. We may fail to keep step with it but we shall be affected by it. We know how necessary it is that the planlessness of the past shall give way to a more carefully planned future, we know how necessary it is that blind chance, individual rapacity, and the reliance upon Providence shall be

superseded by cooperative action. In the new world that we are trying to make, the new world in which we shall live, we shall, I hope, not need to write any Bill of Rights so far as freedom of thought, of speech, of assembly, of religion, and of the press are concerned. It will be a world that is controlled by ideas not by force, by liberty not by compulsion, by ideals not by pressures.

And this brings to an end a sort of synoptic review of some of the problems arising out of the new deal with which educators are concerned. Should the new deal succeed, it will mean that more emphasis in the future will be placed upon service and less upon financial returns, more upon cooperation and less upon personal advantage, more upon the permanent and less upon the temporal values of life. A new society such as the new deal would have us picture will be a society founded on the durable satisfactions of life. The achievement of it rests upon courage, strength of character, disinterested and high intellectual service. Life never presented so many interesting problems and education never had so many alluring opportunities before.

## EDUCATION AND THE GENERAL SOCIAL ORDER<sup>1</sup>

CHARLES H. JUDD  
*University of Chicago*

A STRIKING paradox has appeared in recent times in the thought and behavior of the American people. The demand for increased educational opportunities above the elementary level was never so insistent as it is today. At the same time there are frequent expressions of skepticism with regard to the competency of secondary schools and institutions of higher education and there is, in some quarters, questioning with regard to the continuation of the present policy of supplying free secondary education for all who desire it.

The situation can undoubtedly be explained in part by industrial and economic conditions. Young people are attending schools and colleges because they cannot find employment. Criticism of education is undoubtedly to some extent a rationalization of the emotional attitude of communities which feel compelled to withdraw financial support from institutions they erected and formerly encouraged to expand.

There are many hopeful members of the teaching profession who believe that the depression accounts for all the difficulties which educational institutions are encountering and that nothing but patience is required. In due time, according to the expectations of these optimists, the educational system will be re-established in public esteem, and abundant resources will be provided for programs even more elaborate than those which were developed in the days of prosperity.

A careful study of the trends of American life does not seem to justify the

assumption that this country will be satisfied at any time in the future with the kind of education that it has had in the past. Let us consider a number of problems which cannot be solved without fundamental changes either in schools or in society.

All the progressive states of the Union have laws which require children to attend school until they are sixteen years of age. These laws were enacted because it has come to be generally recognized that society profits in the long run by protecting children during the period of their development and by providing supervision while they are slowly adjusting themselves to the exacting demands of civilization. Probably in the future no state will permit the employment of children under sixteen years of age. Possibly eighteen will be the universally accepted age under which no young person may be employed. The determination of the ages prescribed in compulsory school attendance laws is not, and never has been, in the hands of the schools. Society acts with a view to caring for its young people because of the inability of industry to absorb them. Furthermore, in dealing with the problems of juvenile delinquency, society has found that it is cheaper to take care of youths in school than it is to run the risk of having to confine them in penal institutions. Compulsory school attendance laws are dictated by society outside the school.

The school system which is unable or unwilling to accommodate itself to the young people who are compelled by law to attend school is out of harmony with the general social order. I dare say others

<sup>1</sup> An address delivered before the Association in Chicago on Saturday, April 21, 1934.—THE EDITOR.

in this company have heard, as I have, secondary-school teachers and principals complaining about certain pupils whom they describe in the most opprobrious terms—pupils who come into their institutions as a result of compulsory school attendance laws but are unable to do the work required. I have heard these pupils described as "impossible." I have heard it said that they are uninterested, that they disrupt the school, and that they render impossible the maintenance of standards of scholarship. What impresses me, when I hear such comments, is the complacence with which members of the faculties of secondary schools throw off all responsibility of these pupils. It seems curious that anyone who accepts a position, as a servant of the public on the staff of a secondary school, should overlook the fact that he is employed by society to solve the problems which confronted the state when it passed the compulsory school attendance law.

Some day the secondary schools of this country will discover that they are parts of a general social order which, though it moves slowly, is moving in the direction of a complete and fundamental revision of the program of instruction offered to high-school pupils, especially those in what is now the ninth grade. The courses now administered in most ninth grade curriculums have as little to do with the society which passed compulsory school attendance laws as medieval theology has to do with conduct in modern society. Until secondary-school teachers realize that they are under obligation drastically to revise the curriculum of the ninth grade, and ultimately of the other grades, skepticism with regard to the competency of the secondary school will continue to increase.

A second situation which arouses doubt in the popular mind about the efficiency of the educational system is to be found in the frequent open exhibitions of secondary schools and colleges of

their distrust of each other. I never know which party to the dispute between these two groups of institutions deserves the less sympathy. When I go to meetings of the Department of Superintendence of the National Education Association, I hear seekers after a cheap and readily secured form of notoriety tell of the shortcomings and snobbish attitude of colleges. When I attend meetings of the American Association of University Professors—which, I hasten to say, is very seldom—I hear intemperate vilification of the secondary schools as utterly lacking in either discipline or devotion to scholarship. If the ordinary citizen accepts as true half that is said on either side of the controversy, he must conclude that something is seriously wrong with the educational system. If he does not believe what is said on either side, he must conclude that educators are incompetent to judge their fellow-workers.

Another illustration of the incoordination between schools and society has come to light in these days when the nation finds that there has been absent from the curriculums of all its schools proper emphasis on a group of subjects which are now seen to be essential to successful government and to successful management of industry and business. The question has been asked very pointedly of late why schools and colleges do not require all their students to become familiar with the principles of economics and political science. To be sure, one can give a number of answers to this question. One can trace the history of the curriculum and show clearly that the classical languages and mathematics occupied the attention of educators so fully and entrenched themselves so thoroughly that there has been until very recently no place for social studies. One can explain that teacher-training institutions have been so absorbed in teaching psychology and methods of instruction that they have allowed their

graduates to go out into the world with no knowledge of the fundamentals of social science. Such historical and factual statements serve admirably the purpose of establishing a full understanding of the reasons why the educational system came into its present state of social inadequacy, but they do not satisfy the critic who points out the fact that society cannot prosper when its members are ignorant about social institutions even though they may be well-trained linguists and geometricians.

The illustrations presented thus far justify the statement that educational institutions are not as alert as they should be with regard to the needs of society. Let us turn to an example which shows that society is not always aware of its own needs. In 1933 Congress appropriated \$25,000,000 for the purpose of transplanting destitute families to new areas where it is hoped they will be self-sustaining. The money appropriated by Congress is being spent for what are known as "subsistence homesteads."

One of the localities from which families must be moved is the region around an exhausted coal mine in West Virginia. The federal government will build for families in this region houses in a valley which has tillable soil. Each house will have a plot of ground to be cultivated for the purpose of supplying the family with food. The houses are to be turned over to the subsistence homesteaders subject to long-term mortgages carrying a low rate of interest. The law under which the new homesteads are to be set up does not provide for anything except houses. No community centers of any kind, no schools, stores, or churches are to be erected with federal money. The families which are thus being supplied with houses will not be able for a long time to provide themselves with the public buildings essential to community life. They are utterly without financial resources and are being saved from starva-

tion by public relief. The impressive fact is that the framers of the law providing houses failed to understand that modern society cannot exist without community facilities. The children of these families must have schools. Not only so, but the fathers and mothers themselves will have to take on new modes of life. They who were miners will have to become farmers. A way will have to be found of teaching the subsistence homesteaders how to raise crops, or the project will not achieve its goal. No private investor would expect to collect interest or principal on mortgages placed on mere houses. Congress, as the spokesman of the general social order, has committed the same mistake that many local communities are committing today. It has thought so intently about economic distress that it has overlooked the most fundamental facts about the social order.

Another illustration of the floundering of society is seen in the efforts of adults in such a city as this to secure courses of instruction which they need to make them somewhat more competent and somewhat better satisfied with life. Some years ago a canvass was undertaken in Chicago of all kinds of schools which give courses to adults. The list of such schools is astonishingly long. One can enter courses in journalism, in drawing, in music, in mechanics and electricity, in economics and law, and in a great many other subjects. The important fact for the present discussion, however, is not the variety of these schools and the courses which they offer but the unevenness in their competency to do what they claim to do. Schools for adults in this city range all the way from charlatan institutions which are sheer frauds to institutions of high grade conducted by teachers who are well equipped and thoroughly competent. A great number of these schools are entirely outside the pale of what is ordinarily thought of

when one speaks of the educational system. They have appeared in response to a social demand which has not yet secured adequate attention from the educational system. They are on the frontier of the social order.

It would be possible to multiply illustrations almost without number to show that the educational system of this country is not fully integrated internally and is by no means adjusted to society. Equally numerous are illustrations of educational services which society needs but does not know how to secure.

The reason why the situation is as it is can be readily explained. The people who are competent to direct the organization of society and of education are absorbed in particular tasks and have little time or energy to consider broad questions of general policy. The teacher in a secondary school or college devotes himself exclusively to his specialty. The principal of a school or the president of a college is glad to bring his day to a close with the feeling that he has succeeded for the time being in steering his institution through the difficulties and perils of the times. The leaders in industry and business are likewise absorbed in their individual undertakings.

We are fortunate in this Association in that we have learned to meet and discuss problems of co-ordination, but we seldom have time to deal with the question: What does American society need in order to raise it to the highest possible level of intelligent living? We do not include in our active membership those who can observe our institutions from the point of view of society outside the educational system. We do not make, as it seems to me, any adequate effort to relate our thinking and our planning to the thinking and planning of those who organize and conduct government and those who are responsible for the movements within the industrial system. We

have been content to transact business with one another. Our primary purpose has been the preserving and benefiting of our own institutions.

The general plea which it is the purpose of this paper to present is the plea that we find some way of giving more consideration to education as an aspect of the general social order and that we turn our minds and part of our energy to the task of contributing to the improvement of the social order and to the closer articulation of our academic institutions with the institutions of the outside world. There are three specific suggestions which I lay before you as recommendations for future consideration.

The first of these suggestions is that the North Central Association invite ten laymen, selected by the Executive Committee of the Association, residents in the territory of the Association, to meet and give consideration to the adjustments which are needed in order to organize more efficiently the educational systems of this part of the United States. Such a group when constituted would undoubtedly call to its service various members of this Association for statements regarding present conditions and possible readjustments. It is probably true that many of the secondary schools and institutions of higher education in this Association are timid about undertaking innovations which they consider desirable because they do not feel sure that their experiments would meet with popular approval. It will, of course, be impossible for a lay group such as that suggested to legislate. On the other hand, it is quite certain that education would take on a new dignity in the public mind if leading citizens would join with this Association in approving broad plans.

The group would have to be asked to devote some time to its problem. I suggest that the first meeting continue for

a period of three days and that hearings be held on the major aspects of the educational system. The outcome of this first meeting would be requests for new information not immediately available. Perhaps deliberations would lead to the formulation of certain plans to be considered and matured at a later meeting. At a second meeting the group would be furnished with the results of studies made in the interval between meetings. It would also reach conclusions which could be laid before this Association at its annual meeting. The studies necessary as a part of this projected program would be undertaken by volunteers from among the members of this Association. The major contributions which would be asked of the members of the lay committee would be time and wisdom. The time asked for would amount to perhaps six or seven days.

The second suggestion which I have to make is that this Association undertake an investigation of the whole problem of adult education. If I may indulge in speculation at this point, I venture the forecast that the institutions of higher education and the secondary schools of the United States will be called on in the near future to supply the people of this country far more than they have in the past with the results of scientific and literary scholarship. These institutions are the reservoirs of American culture. It is unthinkable that these reservoirs should be accessible only to young people. The universities of Europe are frequented by older people more than are American universities. The growing demand in this country for a wider dissemination among adults of the facts and theories developed in educational institutions is evidence that society has need of a new kind of educational opportunity. It has been pointed out again and again in recent discussions that increased leisure on the part of adults means

increased demands for instruction suited to mature minds. Here and there at such centers as the forums conducted by the school system of Des Moines and in the new junior college at the University of Minnesota the traditions of our modern academic scholasticism are being set aside, and young people and old are listening to lectures which deal with the vital problems of individual and community life.

I look forward to the time when it will not be beneath the dignity of a college or university professor to put his knowledge into simple words and short sentences and to contribute to the popular understanding of social theory. The aloofness of academic scholars is a survival in a somewhat diluted form of the aristocratic attitude of primitive medicine men. Now that knowledge no longer protects itself by surrounding itself with mystery, it will gradually become common for those who possess knowledge to show the spirit of democracy. When that day arrives, society in general will attach itself to academic institutions.

It may not be out of place to remark, in support of this suggestion, that popular sympathy for education will be increased if colleges, universities, and secondary schools prove themselves to be of advantage to the older members of society. Education of adults will make adults aware of the benefits of education.

The third suggestion which I have to make is that this Association find a way of establishing more intimate relations with state departments of education within its territory. To be sure, the inspection of secondary schools in the several states is now carried on jointly by representatives of the state departments and representatives of the state universities belonging to this Association. The suggestion here made is that the Association go a step further. During the past year legislation was proposed in several of the

states designed to terminate the relations between this Association and the public institutions in those states. It is the belief, I am sure, of all of us who are here assembled that such legislative proposals were the results of misunderstandings. There is no fundamental disagreement between the motives and policies of this Association and the general policies of progressive states and state departments of public instruction. Even in dealing with the authorities in charge of local secondary schools or particular institutions of higher education, this Association can render the most intimate and cooperative service if understanding is cultivated through the establishment of closer relations.

It would be helpful if the state superintendents of schools in this territory could be induced to meet at the same time that this Association is meeting. There are regional problems, as this Association has found, which can be solved by conference better than by any other method. The fact that the states included in the Association have discovered that it is advantageous to unite in the discussion of problems relating to secondary and higher education suggests that it is desirable to cultivate regional relationships in other lines. There ought to be sooner or later a study of the relation of senior high schools to junior high schools. There will be no final solution of the problems of junior high schools until elementary schools are taken into consideration. At the other end of the educational ladder, it will be desirable to discuss the organization of graduate work on a regional basis. The whole range of education, public and private, higher and lower, ought to be thought of as constituting a single system. Before problems of education can be dealt with on a national scale, there must be regional adjustments. This Association, which has the proud record of initiating

many of the important comprehensive movements in American education, can perform a large service for American society if it will accept responsibility for an undertaking no less comprehensive than the adaptation of education in all its stages to the needs of modern society. An invitation to the state superintendents of public instruction to join in the larger program of planning for all the schools and institutions of higher education in the North Central territory would remove the grounds for antagonism which now seem to exist in the minds of legislators in a number of states.

There is one objection which, I have no doubt, has arisen in the minds of some of you as I have advocated the enlargement of the scope of the activities of this Association. I think I realize fully the importance of performing in our brief meetings the special duties for which our organization has always been responsible. I would not for a moment think of suggesting that this Association abandon its functions of sponsoring the improvement of secondary and higher education. I am convinced that the best way to perform the traditional functions of the Association is to recognize now that a new day has come. In this new day there can be no isolation of institutions. If education is to flourish, it must resolve its internal disagreements and present to the world a united front. More than that, the educational system must recognize the fact that it is a part of society and that it is responsible for accord with society. If education is what it professes to be, the advanced guard of civilization, it must move in the direction in which civilization should move. I advocate, therefore, the extension of the activities of this Association. I believe that we shall gain new vigor as we undertake new and increasingly comprehensive tasks.

# PROCEEDINGS OF THE COMMISSION ON INSTITUTIONS OF HIGHER EDUCATION

GEORGE A. WORKS, Secretary

## I. REPORT OF THE COMMISSION ON INSTITUTIONS OF HIGHER EDUCATION AS APPROVED BY THE EXECUTIVE COMMITTEE AND THE ASSOCIATION

YOUR Commission on Institutions of Higher Education submits the following report of its activities for the current year. The recommendations concerning the changes in the accredited lists have been approved by the Executive Committee and are here presented for the information of the Association.

In accordance with the instructions from the Commission all cases of accrediting were first heard in detail and passed upon by the Board of Review consisting of the following members:

President H. M. GAGE, Coe College  
President A. H. UPHAM, Miami University  
Principal GEORGE BUCK, Shortridge High School, Indianapolis  
The Reverend Dr. WM. F. CUNNINGHAM, C.S.C., University of Notre Dame  
President W. P. MORGAN, Western Illinois State Teachers College  
President HENRY M. WRISTON, Lawrence College  
Dean GEO. A. WORKS, The University of Chicago

### ACTIONS ON ACCREDITING INSTITUTIONS

#### *Colleges—Reinspections*

1. The following colleges ordered re-inspected prior to this meeting were continued on the accredited list:

Augustana College and Theological Seminary, Rock Island, Illinois  
Harris Teachers College, St. Louis, Missouri  
Indiana State Teachers College, Terre Haute, Indiana  
Iowa Wesleyan College, Mount Pleasant, Iowa  
Manchester College, North Manchester, Indiana  
Marymount College, Salina, Kansas  
Central Missouri State Teachers College, Warrensburg, Missouri  
Northeast Missouri State Teachers College, Kirksville, Missouri

Northwest Missouri State Teachers College, Maryville, Missouri  
Southeast Missouri State Teachers College, Cape Girardeau, Missouri  
Southwest Missouri State Teachers College, Springfield, Missouri  
New Mexico State College of Agriculture and Mechanic Arts, State College, New Mexico  
Oklahoma Agricultural and Mechanical College, Stillwater, Oklahoma  
Shurtleff College, Alton, Illinois  
Southwestern College, Winfield, Kansas  
Washburn College, Topeka, Kansas  
State Teachers College, La Crosse, Wisconsin

#### *Colleges—Special Inspections*

2. The following colleges ordered re-inspected by the Board of Review were continued on the accredited list:

Concordia College, Moorhead, Minnesota  
De Paul University, Chicago, Illinois  
Eureka College, Eureka, Illinois  
John Carroll University, Cleveland, Ohio  
Loyola University, Chicago, Illinois  
Mary Manse College, Toledo, Ohio  
College of St. Catherine, St. Paul, Minnesota  
College of St. Thomas, St. Paul, Minnesota  
Wayne University, Detroit, Michigan

#### *Colleges—New Applications*

3. The following colleges, newly applying, were added to the accredited list:

Hamline University, St. Paul, Minnesota  
Henderson State Teachers College, Arkadelphia, Arkansas  
Mount St. Scholastica College, Atchison, Kansas  
St. Mary's of the Springs College, East Columbus, Ohio  
The Municipal University of Wichita, Wichita, Kansas

#### *Colleges Transferred from Teacher-Training List*

4. The following institution formerly accredited as a teacher-training institu-

tion was added to the list of colleges and universities:

Lincoln University, Jefferson City, Missouri

*Colleges Transferred from Junior College List*

5. The following colleges formerly accredited as junior colleges were added to the list of colleges and universities:

Elmhurst College, Elmhurst, Illinois

The St. Mary College, Leavenworth, Kansas

*Colleges Referred to the Board of Review with Power*

6. The accrediting of the following institutions which were reinspected this year was referred to the Board of Review with power to act:

Butler University, Indianapolis, Indiana

Colorado College, Colorado Springs, Colorado

University of Denver, Denver, Colorado

*Junior Colleges—Reinspections*

7. The following junior colleges ordered reinspected prior to this meeting were continued on the accredited list:

Jackson Junior College, Jackson, Michigan

Lincoln College, Lincoln, Illinois

Morton Junior College, Cicero, Illinois

Thornton Junior College, Harvey, Illinois

*Junior Colleges—Special Inspections*

8. The following junior college ordered inspected by the Board of Review was continued on the accredited list:

Springfield Junior College, Springfield, Illinois

*Junior Colleges—New Applications*

9. The following junior college, newly applying, was added to the accredited list:

Jefferson City Junior College, Jefferson City, Missouri

10. The following four-year colleges were placed upon the junior college list:

George Williams College, Chicago, Illinois

Rockhurst College, Kansas City, Missouri

St. Mary's College, Winona, Minnesota

St. Norbert College, West De Pere, Wisconsin

*Four-Year Institutions Continued on the Junior College List*

11. The following four-year institutions whose three-year terms on the junior college list were completed were continued on the junior college list:

Emmanuel Missionary College, Berrien Springs, Michigan

Teachers College of Kansas City, Kansas City, Missouri

Union College, Lincoln, Nebraska

*Colleges—Dropped*

12. The following institutions were dropped from the list of colleges and universities:

Ashland College, Ashland, Ohio

University of Detroit, Detroit, Michigan

McKendree College, Lebanon, Illinois

College of the Ozarks, Clarksville, Arkansas

Xavier University, Cincinnati, Ohio

*Junior Colleges—Dropped*

13. The following institutions were dropped from the junior college list:

Regis College, Denver, Colorado

Rochester Junior College, Rochester, Minnesota

*Applications—Declined*

14. The following applications were declined:

Three colleges newly applying for accrediting

One junior college newly applying for accrediting

Three junior colleges applying for transfer from the junior college list to the list of colleges and universities

*Resignations*

15. It was voted to accept resignations from the following institutions:

Crane Junior College, Chicago, Illinois

Intermountain Union College, Helena, Montana

These institutions were on the junior college list.

The following institutions resigned from the teacher-training list:

Fairmont State Teachers College, Fairmont, West Virginia

State Teachers College, Minot, North Dakota  
 Central State Teachers College, Edmond, Oklahoma  
 East Central State Teachers College, Ada, Oklahoma  
 Northeastern State Teachers College, Tahlequah, Oklahoma  
 Northwestern State Teachers College, Alva, Oklahoma  
 Southeastern State Teachers College, Durant, Oklahoma  
 Southwestern State Teachers College, Weatherford, Oklahoma

#### CHANGES IN STANDARDS

16. Voted that the plan of accrediting institutions of higher education presented by the committee of fifteen on the revision of standards be approved and that it be adopted as the working policy of the Commission on Institutions of Higher Education with the provision that it become operative at once for all institutions applying for accreditation after this date, and with the further provision that during the coming year the Board of Review be given discretionary powers as to its use in dealing with institutions which are at this time members of this Association.

#### SPECIAL ACTIONS

17. The Commission voted to instruct the Secretary to send the following excerpt from his report to Mrs. Suzzallo and to Chancellor Capen:

The services of two members of the committee on Revision of Standards deserve special mention. Reference is made to those members who come from outside the area of the North Central Association: Dr. Henry Suzzallo and Chancellor S. P. Capen. Both of these gentlemen in spite of the heavy demands on their time responded to the call of this Association for assistance.

Dr. Suzzallo is no longer with us. He fell a victim in a considerable measure at least to the generosity with which he gave of his time and energy to just such causes as were represented by ours. His wisdom will be greatly missed in the educational councils of the nation. To Chancellor Capen we can still express our appreciation of his contribution, and I am taking

this opportunity to do so publicly on behalf of the Commission.

18. Voted that the Secretary of this Association be instructed to prepare an appropriate resolution expressing the appreciation of the Association to the General Education Board for its appropriation of funds and its cooperation with the committee of fifteen in making possible its studies and the preparation of the report submitted and approved by this Association.

#### ACTIONS ARISING FROM COMMITTEE REPORTS

##### *Physical Education and Athletics*

19. Voted to approve the Missouri Valley Athletic Conference.  
 20. A report was received, and the Committee was continued.

##### *Regional Conference Committee*

21. A report was received from the Regional Conference Committee.

##### *Revision of Standards*

See Sections 16 and 18.

#### EDUCATIONAL EXPERIMENTS

22. Voted to adopt the report on the experiment at The University of Chicago and to continue the Committee for one year.

23. Voted to adopt the report on the experiment at Colorado State Teachers College, Greeley, Colorado, and to continue the Committee.

24. Voted to adopt the report on the experiment at Gary, Indiana.

25. Voted to adopt the report on the experiment at Iowa State Teachers College, Cedar Falls, Iowa, and to continue the Committee.

26. Voted to adopt the report on the experiment at Kansas City, Missouri, and to continue the Committee for one year.

27. Voted to adopt the report on the

experiment at Little Rock Junior College, Little Rock, Arkansas, and to continue the Committee.

28. Voted to adopt the report on the experiment at Tulsa, Oklahoma, and to continue the Committee with instructions that it visit the school and make a complete report next year.

27. In response to a request from Superintendent W. J. Bogan, it was voted that the Commission on Institutions of Higher Education appoint a consulting committee to render such assistance as may be practicable in connection with the establishment of the three junior colleges that have been voted by the Board of Education of the City of Chicago.

This Committee is authorized to cooperate in the experiment of organizing this new type of junior college and to determine, after the colleges are established in the autumn, whether the organization, including a suitable system of examinations, justifies the awarding of credits for the work properly completed with examinations. The Committee is to render a complete report on the experiment at the next annual meeting of the Commission.

## II. STATEMENT OF POLICY RELATIVE TO THE ACCREDITING OF INSTITUTIONS OF HIGHER EDUCATION

This statement of policy defines certain principles that will be followed in accrediting institutions of higher education. It is stated in general terms and includes brief descriptions of those characteristics of an institution that will be examined as a basis of accreditation.

This statement of policy is supplemented by a manual which contains elaborations of the statements here given and detailed directions for the execution of the policy here set forth. Upon each important issue the Manual contains specific directions for the collection of

30. Voted to appoint a member from the Commission on Institutions of Higher Education to the joint committee of the Commission on Unit Courses and Curricula with this Commission to supervise an experiment at the University of Nebraska.

31. Voted that under the new criteria it will no longer be necessary for the Association to appoint committees to supervise experiments conducted by member institutions but that the institutions conducting such experiments be required to report them to the Secretary. This will not preclude the appointment of consulting committees at the request of the institutions concerned.

## MISCELLANEOUS

32. Voted that copies of the reports on freshmen sent to high schools by colleges should no longer be sent to the office of the Secretary of the Commission on Institutions of Higher Education.

33. Voted to elect the following officers

Chairman—H. M. GAGE, Coe College

Vice-Chairman—A. H. UPHAM, Miami University

Secretary—GEO. A. WORKS, The University of Chicago

information and such norms and criteria as will make possible a fair and intelligent evaluation of an institution.

### *I. Membership*

The North Central Association of Colleges and Secondary Schools will accredit and admit to membership as an institution of higher education a university, college, junior college, or institution of similar character that is judged to be of acceptable quality in matters later defined in this statement of principles. In the interpretation of this policy the

liberty to integrate the whole or a part of a secondary school with a higher institution will be permitted.

Eligibility for membership will be based upon the character of an institution as a whole, including all the units within its organization. In the case of units, such as professional schools, that fall within the areas of other accrediting agencies, the actions of such accrediting agencies will be taken into account; but the Association does not bind itself to accept the judgment of these agencies.

### *2. Purposes of Accrediting*

The purposes of the Association in accrediting higher institutions are as follows:

*a.* To describe the characteristics of institutions worthy of public recognition as institutions of higher education.

*b.* To guide prospective students in the choice of an institution of higher education that will meet their needs.

*c.* To serve individual institutions as a guide in interinstitutional relationships, such as the transfer of students, the conduct of intercollegiate student activities, the placement of college graduates, and the selection of college faculties.

*d.* To assist secondary schools in the selection of teachers and in advising students as to a choice of institutions, and to promote in any other ways the coordination of secondary and higher education.

*e.* To stimulate through its accrediting practices the improvement of higher education in the territory of the North Central Association.

### *3. Bases of Accrediting*

An institution will be judged for accreditation upon the basis of the total pattern it presents as an institution of higher education. While institutions will be judged in terms of each of the charac-

teristics noted in this statement of policy, it is recognized that wide variations will appear in the degree of excellence attained. It is accepted as a principle of procedure that superiority in some characteristic may be regarded as compensating, to some extent, for deficiencies in other respects. The facilities and activities of an institution will be judged in terms of the purposes it seeks to serve.

### *4. Eligible Institutions*

To be considered by the Association an institution must be legally authorized to confer collegiate degrees, or to offer a definitely described portion of a curriculum leading to such a degree, or to offer specialized curriculums leading to an academic certificate. An approved institution is not barred from offering curriculums terminating at the end of one, two, or three years if they are taught at the level of collegiate instruction. The curriculum should presuppose the completion of a secondary-school curriculum as a condition for entrance to the institution, or secondary courses should be so integrated with the curriculum of the institution itself as to guarantee the educational progress of students to a definite stage of advancement beyond the completion of the usual secondary-school offering. Before an institution will be considered for accreditation, it must have been in operation long enough to make possible an evaluation of its program.

### *5. Individuality of Institutions*

In its accrediting procedures the Association intends, within the general patterns of higher education, to observe such principles as will preserve whatever desirable individual qualities member institutions may have. While it is necessary to emphasize certain characteristics that are recognized as basic, such as the competence of the faculty, the repre-

sentative character of the curriculum, effective administration, standards of student accomplishment, and financial adequacy, it is regarded as of prime importance also to protect such institutional variations as appear to be educationally sound. Even in these basic matters it is clear that considerable divergence from average or optimum conditions may occur without perceptibly detracting from the essential educational worth of an institution. Uniformity in every detail of institutional policies and practices is believed to be not only unnecessary, but undesirable. Well conceived experiments aimed to improve educational processes are considered essential to the growth of higher institutions and will be encouraged.

#### *6. Institutional Purposes and Clientele*

Recognition will be given to the fact that the purposes of higher education are varied and that a particular institution may devote itself to a limited group of objectives and ignore others, except that no institution will be accredited that does not offer minimal facilities for general education, or require the completion of an adequate program of general education at the collegiate level for admission.

Every institution that applies for accreditation will offer a definition of its purposes that will include the following items:

- a. A statement of its objectives, if any, in general education.
- b. A statement of the occupational objectives, if any, for which it offers training.
- c. A statement of its objectives in individual development of students, including health and physical competence.

This statement of purposes must be accompanied by a statement of the institution's clientele showing the geographical area, the governmental unit,

or the religious groups from which it draws students and from which financial support is derived.

- The facilities and activities of an institution will be judged in terms of the purposes it seeks to serve.

#### *7. Faculty*

An institution should have a competent faculty, organized for effective service, and working under satisfactory conditions.

In determining the competence of the faculty, consideration will be given to the amount and kind of education that the individual members have received, to their experience and educational work, and to their scholarship as evidenced by scholarly publications and contact with learned societies. Attention will be given to the faculty requirements implied by the purposes of the institution. The educational qualifications of faculties in colleges of similar type will be considered in judging the competence of a faculty.

Under faculty organization consideration will be given to the number of the faculty in ratio to the number of students, to representation of the teaching fields, to the training of instructors in their fields of instruction, to group organization of the faculty, to faculty meetings, and to faculty committees.

Under satisfactory working conditions consideration will be given to the following: salary status; tenure; instructional load; recruiting, selection, and appointment; aids to faculty growth; and provisions for leaves of absence, retirement, insurance, housing, and recreation and community life.

#### *8. Curriculum*

The curriculum of an institution should contain the subject-matter offerings implied by its statement of objectives. In general these offerings include provisions for general education, ad-

vanced courses when the purposes of an institution require such offerings, and special courses appropriate to the specific objectives which the institution claims as among its functions.

An institution should provide appropriate facilities for general education unless, as may be the case in a particular institution, its program presupposes the completion of an adequate program of general education at the collegiate level prior to entrance.

The organization of the curriculum should be such as will best serve students of the type whose admission is implied by the declared purposes of the institution. Responsibility for the grouping of curriculum content, as by courses, departments or divisions, will lie with institutions. The merit of a curriculum organization will be judged primarily by the manner in which it functions.

The curriculum of an institution will be regarded as effective only when the faculty includes instructors competent by reason of educational preparation to offer instruction in announced courses.

The institution should be able to show clearly that the curriculum as described in published statements is effectively administered in the case of individual students and that there is reasonable adherence to stated requirements in the awarding of degrees and certificates of progress.

#### *9. Instruction*

An institution will be expected to show a sympathetic concern for the quality of instruction offered students and to give evidence of efforts to make instruction effective. Consideration will be given to the emphasis placed by the institution upon teaching competence in the selection and promotion of teachers, to the manner in which young instructors are inducted into teaching activities, to the aids that are provided as stimuli

to the growth of individual members of the staff, to the institution's concern for high scholarship in students, to its emphasis upon the adjustment of the curriculum and teaching procedures to the abilities and interests of students, to efforts to make such examinations as are given more reliable and more accurate measures of student accomplishment, and to the alertness of the faculty to the instructional needs of students. Familiarity of the administration and faculty with current discussions of instructional problems at the college level and with recent experimental studies of college problems are further evidences of institutional alertness to the need for good college teaching.

#### *10. Library*

The library should provide the reading facilities needed to make the educational program effective, and there should be evidence that such facilities are appropriately used.

In estimating the adequacy of the library, attention will be given to the holdings of standard works of general and special reference, to the holdings of magazines and periodicals, and to the number and variety of books. The use of the library by students and by the faculty, library expenditures over a period of years, the salaries of the library staff, the qualifications of the staff, and the administrative practices relating to the library will all be considered in this connection.

#### *11. Induction of Students*

The policy of an institution in admitting students should be determined on the one hand by the purposes of the institution and on the other by the abilities, interests, and previous preparation of applicants. An institution should admit only those students whose educational interests are in harmony with the pur-

poses of the institution and whose abilities and previous preparation qualify them to pursue the studies to which they are admitted.

In evaluating the practices of an institution in the induction of students, attention will be given to the provision for preregistration guidance in cooperation with secondary schools, to the criteria used in the selection of students, to the administration of the stated entrance requirements, and to the arrangements for introducing new students to the life and work of the institution.

#### *12. Student Personnel Service*

The student personnel service of an institution should assist students to analyze and understand their problems and to adjust themselves to the life and work of the institution.

Consideration will be given to the means employed by an institution to assist students in the selection of courses and curriculums, in solving immediate academic problems, in furthering their scholastic development, and in making suitable vocational choices and preparation. Attention will also be given to the practices of an institution in counseling students about their health, their financial affairs, and their intimate personal affairs. The student's relation to extra-curriculum activities will also be studied. The practices of an institution in the provision and control of health services, in the housing and boarding of students, in the management of extra-curriculum activities, in the control of student conduct, and in financial assistance to students will be considered.

#### *13. Administration*

The administrative organization should be suitable for accomplishing the objectives of the institution. Adequate provision should be made for the performance of all administrative functions

by a personnel competent in their respective lines of activity.

In evaluating the administration of an institution, the emphasis will be placed upon the manner in which the functions are performed rather than upon the organization or the personnel, although the suitability of the organization and the competence of the personnel cannot be ignored. Attention will be given to such matters as the constitution and activities of the board of control; the general system of administrative control; the administration of academic matters, such as curriculum, faculty personnel, and instruction; the business administration, including financial accounting, budgeting, purchasing, the collection of revenues, and the supervision of the finances of student activities; the administration of the physical plant; the management of invested funds, if any; the administration of the student personnel service; the administration of special educational activities, if any, such as summer session or extension services; and the system of records and reports.

#### *14. Finance*

The institution should provide evidence of financial resources adequate for and effectively applied to the support of its educational program.

The items of information to be considered in determining the adequacy of the financial support are the expenditure per student for educational purposes; the extent to which the institution is dependent upon student fees; the stability of the financing, as indicated by the amount of income per student from stable sources, and the avoidance of burdensome indebtedness; and the procedures in financial accounting and reporting. Necessary adjustments will be allowed for contributed services of instructors and administrative officers in Catholic institutions.

### *15. Physical Plant*

The physical plant, comprising grounds, buildings, and equipment, should be adequate for the efficient conduct of the educational program and should contribute effectively to the realization of the accepted objectives of the institution.

In judging the plant, consideration will be given to the adequacy and effectiveness of such features as site; general type of buildings; service systems; classrooms, laboratories, and other facilities appropriate to the special purposes of the institution; office facilities; library buildings; facilities for health service, recreation, and athletics; dormitories; auditoriums; assembly rooms; and the operation and care of the plant.

### *16. Intercollegiate Athletics*

If the institution maintains a program of intercollegiate athletics, the same policies should prevail in regard to faculty, administration, and the management of students as are in force in connection with the other features of the institution.

In evaluating the athletic program, consideration will be given to the requirements for eligibility for participation; the distribution of scholarships, loan funds, grants of financial aid, and remunerative employment; the methods taken to safeguard the health of participants; the administrative organization; the financial control; and the competence of the staff.

### *17. Institution's Study of Its Problems*

An institution should continuously study its policies and procedures with a view to their improvement and should provide evidence that such useful studies are regularly made.

Consideration will be given to the

means used by the institution in the investigation of its own problems, to the nature of the problems selected for study, to the staff making studies, to the methods employed, to the attitude of the administration toward and the support given to such studies, and to the manner in which the results are made available to the faculty, the administrative staff, and the interested clientele. It is recognized that such studies may be of many sorts, ranging from small inquiries of immediate service value to elaborately conducted experimental investigations. They may deal with any phase of the work of an institution, such as administration, curriculum, student personnel service, instruction, or any other matter of immediate or remote concern to the institution. An institution will be requested to provide typed or printed copies of completed studies.

### *18. Published List of Accredited Institutions*

The Association will publish one list of accredited institutions of higher education. Attached to the name of each institution in the list will be notations relative to such objective facts as are pertinent to a description of the characteristics of an institution.

### *19. Continuing Revision of Policy and Procedures*

The effect of this program of accrediting upon the welfare of institutions is the vital matter in its formulation and adoption. Continuous study leading to adjustment and improvement is accepted as necessary to the full fruitage of the plan and will be considered an integral part of the regular accrediting activities of the Association. It shall be the policy of the Commission to study the operation of the principles given in this statement of policy and of the detailed procedures described in the manual.

In pursuit of this policy, there will be collected periodically from member institutions such information as will contribute to the procedures of accrediting and will reveal the changing character of these institutions. It shall be the duty of the Secretary, with the counsel of the Board of Review, to conduct annually one or more detailed studies upon selected phases of the accrediting program. The

study of any given year will include only a limited number of institutional characteristics, but they should be so chosen as to make it possible from time to time to determine improved procedures and criteria for the use of inspectors and the Board of Review. The results of such studies will be regularly reported to the Commission on Institutions of Higher Education.

### III. ANNUAL REPORT OF THE SECRETARY OF THE COMMISSION ON INSTITUTIONS OF HIGHER EDUCATION

The plan by which member institutions report every third year brought reports this year from the membership in the states of Illinois, Minnesota, Ohio, and West Virginia.

For the general and financial reports the same forms were used this year as were employed last year. In a few cases the need for supplementary information resulted in using some of the forms that have been developed in connection with the revision of standards. The use of the special report for schools or departments of music was continued this year. The reports that were made a year ago in this field were placed in the hands of President O. R. Latham of Iowa State Teachers College. He made a study of them on which he based some helpful suggestions for the inspectors who visited institutions having departments or schools of music.

The Board of Review ordered the inspection of six institutions and a survey of eight institutions on the basis of the triennial and annual reports. Five of the surveys were of Catholic institutions in which the indebtedness was greater than the endowment. This action was taken on February 2, 1934.

Institutions applying for accrediting for the first time, or seeking transfer from either the teacher-training or junior college list, or subject to inspection for any other reason were asked to furnish the

data called for in the triennial reports. In addition they were asked to make the reports on library, the work in music if it were offered, and athletics. The information regarding athletics from institutions making triennial reports was placed in the hands of the Committee on Physical Education and Athletics. As a result of its study of these reports, the Committee made suggestions which were helpful to the Board of Review, as well as using the data collected for a report which will be presented at this session of the Commission.

The financial standards adopted for Catholic institutions became effective this year. This made it necessary for the Secretary to prepare a new blank for these reports. The report was required of all Catholic institutions that are members of the Association as well as of all those newly applying for admission. In those cases in which the indebtedness was greater than the endowment a survey was required. As previously indicated, surveys were ordered in five cases. In the case of one institution which had participated in the study for the revision of standards a report from the Committee in Charge of the Study was accepted in lieu of a survey.

In the case of nineteen institutions the survey rather than the inspection was

used. The Board of Review was fortunate in being able to secure again the services of President R. A. Kent of the University of Louisville and President Homer P. Rainey of Bucknell University. It was impossible for them to make all of the surveys, and the help of President John L. Seaton of Albion College and Dean A. J. Brumbaugh of The University of Chicago was obtained to supplement the work of Presidents Kent and Rainey. Under the provisions made for admission of independent schools of music and art, the School of the Art Institute of Chicago asked for a survey. This survey was made by President O. R. Latham of Iowa State Teachers College and Professor James Hopkins of Ohio State University.

The Commission is under obligation to the following individuals who gave their services in making inspections and surveys:

#### *Surveys*

Dean A. J. BRUMBAUGH, The University of Chicago  
 Professor JAMES HOPKINS, Ohio State University  
 President R. A. KENT, University of Louisville

| 1 Report from Committee on Revision of Standards in Lieu of an Inspection |
| <hr/> <b>60 TOTAL</b>   |

Aside from the formal report that has been presented to you, there are two comments that seem appropriate at this time. It will be remembered that a year ago the Association, on the basis of a recommendation made by the Committee on Revision of Standards, adopted a new financial standard for Catholic institutions. That standard became effective this year. Putting this standard into operation has placed a great deal of extra work on the Catholic institutions as well as on the office of the Secretary. The Catholic institutions have cheerfully complied with the extra demands made on them so far as it was practicable to do so. The experience of the schools in assembling the necessary data has convinced some of them that they should have more adequate financial records. The Secretary is so fully in accord with this view that he takes this opportunity to pass it on to the Catholic institutions as a group.

As Secretary, I have had the opportunity to follow closely the work done by the Committee on Revision of Standards and the Committee in Charge of the Study. One who has had this opportunity could not help but be impressed by the time and energy that have been devoted to this work by both committees but especially by the latter. Of necessity all of the detailed work fell to the Committee in Charge of the Study. The members have devoted themselves uppar-

tingly to the task with the result that they have presented to the Committee on Revision of Standards a report that is certain to have an influence on higher education that will extend beyond the confines of the territory of the North Central Association.

The services of two members of the Committee on Revision of Standards deserve special mention. Reference is made to those members who come from outside of the area of the North Central Association: Dr. Henry Suzzallo and Chancellor S. P. Capen. Both of these gentlemen in spite of the heavy demands on their time responded to the call of this Association for assistance.

Dr. Suzzallo is no longer with us. He fell a victim in a considerable measure at least to the generosity with which he gave of his time and energy to just such causes as were represented by ours. His wisdom will be greatly missed in the educational councils of the nation. To Chancellor Capen we can still express our appreciation of his contribution, and I am taking this opportunity to do so publicly on behalf of the Commission.

In conclusion may I say that I believe that to both bodies—the Committee on Revision of Standards and the Committee in Charge of the Study—the Commission owes a debt, the magnitude of which it will have a growing appreciation with the lapse of years.

#### FINANCIAL STATEMENT

1933-1934

## IV. LIST OF ACCREDITED INSTITUTIONS OF HIGHER EDUCATION—1934

Effective April, 1934, to April, 1935

## COLLEGES AND UNIVERSITIES

*Explanation of Dates.* The dates listed are dates of accrediting, not dates of membership. The first accredited list was published in 1913, and no institution was accredited prior to that time.

A dash connecting two dates indicates continuous accrediting during the period specified; e.g. 1915-1919 means continuous accrediting from 1915 to 1919 inclusive. A date followed by a dash only indicates continuous accrediting to and including the current year.

A semicolon indicates that the institution was on the list for the one year specified, but was not on the list for the

following year, unless the next entry shows a change of classification for the next year.

Example: Iowa State Teachers College at Cedar Falls was on the first accredited list published by the Association in 1913 and was continuously accredited to and including 1916; was not on the list published in 1917, but was restored in 1918 and continuously accredited to and including 1929 as a teacher-training institution as indicated by the second footnote. The institution was transferred to the list of colleges and universities in 1930.

| Institution                                    | Location             | President  | Date Accredited     |
|--|----------------------|--|---------------------|
| Akron, University of                           | Akron, Ohio          | H. E. Simmons  | 1914-               |
| Albion College                                 | Albion, Mich.        | John L. Seaton   | 1915-1921<br>1923-  |
| Alma College                                   | Alma, Mich.          | H. M. Crooks   | 1916-               |
| Antioch College                                | Yellow Springs, Ohio | Arthur E. Morgan,<br>Pres.<br>H. D. Henderson,<br>Acting Pres. | 1927-               |

## HIGHER INSTITUTIONS ACCREDITED BY OTHER STANDARDIZING AGENCIES

FOR several years it has been customary for the QUARTERLY to publish the lists of colleges and universities accredited by the other regional standardizing agencies of the country as supplementary

to the list approved by the North Central Association. The revised lists of these other associations for the current year are therefore printed here.—  
THE EDITOR.

### I. THE NORTHWEST ASSOCIATION OF SECONDARY AND HIGHER SCHOOLS

#### COLLEGES AND UNIVERSITIES

Alaska College of Agriculture, and School of Mines, Fairbanks, Alaska  
Albany College, Albany, Oregon  
Brigham Young University, Provo, Utah  
College of Holy Names, Oakland, California  
College of Idaho, Caldwell, Idaho  
College of Puget Sound, Tacoma, Washington  
Columbia University, Portland, Oregon  
Dominican College, San Rafael, California  
Gonzaga University, Spokane, Washington  
Immaculate Heart College, Hollywood, California  
Intermountain Junior College, Helena, Montana  
Linfield College, McMinnville, Oregon  
Loyola University, Los Angeles, California  
Marylhurst College, Oswego, Oregon  
Montana State College, Bozeman, Montana  
Montana State School of Mines, Butte, Montana  
Montana State University, Missoula, Montana  
Mt. Angel College, Mt. Angel, Oregon  
Mt. St. Mary's College, Los Angeles, California  
Oregon State Agricultural College, Corvallis, Oregon  
Pacific Union College, Angwin, California  
Pacific University, Forest Grove, Oregon  
Reed College, Portland, Oregon  
San Francisco College for Women, San Francisco, California  
St. Mary's College, Oakland, California  
University of Idaho, Moscow, Idaho  
University of Oregon, Eugene, Oregon  
University of Redlands, Redlands, California  
University of San Francisco, San Francisco, California  
University of Santa Clara, Santa Clara, California  
University of Utah, Salt Lake City, Utah

University of Washington, Seattle, Washington  
Utah State Agricultural College, Logan, Utah  
Washington State College, Pullman, Washington  
Whitman College, Walla Walla, Washington  
Whitworth College, Spokane, Washington  
Willamette University, Salem, Oregon

#### NORMAL SCHOOLS AND TEACHERS COLLEGES

California State Teachers College, San Diego, California  
Eastern Montana Normal School, Billings, Montana  
Eastern Oregon Normal School, La Grande, Oregon  
Fresno State Teachers College, Fresno California  
Holy Names Normal School, Spokane, Washington  
Idaho State Normal School, Albion, Idaho  
Idaho State Normal School, Lewiston, Idaho  
Marylhurst Normal School, Oswego, Oregon  
Montana State Normal College, Dillon, Montana  
Mt. Angel Normal School, Mt. Angel, Oregon  
Oregon Normal School, Monmouth, Oregon  
Seattle Pacific College, Seattle, Washington  
Southern Oregon Normal School, Ashland, Oregon  
Washington State Normal School, Bellingham, Washington  
Washington State Normal School, Cheney, Washington  
Washington State Normal School, Ellensburg, Washington

#### JUNIOR COLLEGES

Dixie Junior College, St. George, Utah  
Northern Montana College, Havre, Montana  
Northwest Nazarene College, Nampa, Idaho

- Snow College, Ephraim, Utah  
 Southern California Junior College, Arlington, California  
 St. Helen's Hall Junior College, Portland, Oregon  
 St. Martin's College, Lacey, Washington
- St. Mary of the Wasatch College, Salt Lake City, Utah  
 University of Idaho, Southern Branch, Pocatello, Idaho  
 Walla Walla College, Walla Walla, Washington  
 Weber College, Ogden, Utah

## II. THE SOUTHERN ASSOCIATION OF COLLEGES AND SECONDARY SCHOOLS

### COLLEGES AND UNIVERSITIES

- Agnes Scott College, Decatur, Georgia  
 Agricultural and Mechanical College of Texas, College Station, Texas  
 Alabama College, Montevallo, Alabama  
 Alabama Polytechnic Institute, Auburn Alabama  
 Alabama, University of, University, Alabama  
<sup>1</sup>Baylor College for Women, Belton, Texas  
<sup>1</sup>Baylor University, Waco, Texas  
 Berea College, Berea, Kentucky  
 Birmingham-Southern College, Birmingham, Alabama  
 Blue Mountain College, Blue Mountain, Mississippi  
<sup>1</sup>Brenau College, Gainesville, Georgia  
<sup>1</sup>Bridgewater College, Bridgewater, Virginia  
 Carson and Newman College, Jefferson City, Tennessee  
<sup>1</sup>Catawba College, Salisbury, North Carolina  
 Centenary College, Shreveport, Louisiana  
 Centre College, Danville, Kentucky  
 Charleston, the College of, Charleston, South Carolina

## PROCEEDINGS OF THE COMMISSION ON SECONDARY SCHOOLS

HENRY G. HOTZ, Secretary

### I. REPORT OF THE COMMISSION ON SECONDARY SCHOOLS AS APPROVED BY THE EXECUTIVE COMMITTEE AND THE ASSOCIATION

THE Commission on Secondary Schools conducted its formal meetings on Thursday afternoon and on Friday forenoon, April 19 and 20. These meetings were well attended and the character of the deliberations was unusually harmonious.

In accordance with the plan adopted in 1933, all applications for approval from secondary schools were submitted to the Central Reviewing Committee in advance of the regular meetings of the Commission. The Central Reviewing Committee met on Tuesday and Wednesday, April 17 and 18, to examine these applications and to formulate preliminary recommendations to the Commission as a whole.

#### MEMBERS OF CENTRAL REVIEWING COMMITTEE AND SUB-COMMITTEE ASSIGNMENTS

1. *Schools to Be Unqualifiedly Recommended:* A. A. Reed, Chairman, Nebraska; G. W. Rosenlof, Vice-Chairman, Nebraska; O. K. Garretson, Arizona; Elizabeth Ireland, Montana; C. G. F. Franzen, Indiana; H. E. Flynn, Minnesota; J. A. Larson, Arkansas.

2. *Schools to Be Advised:* W. H. Gemmill, Chairman, Iowa; R. C. Hunt, Kansas; George Davis, Iowa.

3. *Schools to Be Warned or Warned and Advised:* C. R. Maxwell, Chairman, Wyoming; C. W. Boardman, Vice-Chairman, Minnesota; W. H. Congdon, Michigan; H. D. Trimble, Illinois; J. T. Giles, Wisconsin; L. A. Eastburn, Arizona; E. H. Landis, Ohio.

4. *New Schools:* M. R. Owens, Chairman, Arkansas; J. A. Holley, Oklahoma.

### 5. *Schools to Be Dropped and Schools Withdrawn:* J. W. Fichter, Ohio.

#### ACTIONS ON SECONDARY SCHOOLS APPLYING FOR APPROVAL

The Commission passed upon the applications of 2593 schools enrolling over 1,300,000 high school pupils. Both the number of schools that were dropped and the number of schools which voluntarily withdrew from the Association were relatively very small, while a relatively larger list of schools were this year warned or advised. The prescribed procedure in the final disposition of these applications is that the Chairmen of the respective State Committees submit their recommendations for approval or rejection to the Central Reviewing Committee. The recommendations of the Reviewing Committee are then submitted to the Commission, which in turn submits its recommendations to the Executive Committee for final ratification.

For the school year 1934-35, the Association approved 2574 secondary schools. Seventy of these are new schools, and 2504 are schools which were approved for the school year 1933-34 and were continued on the 1934-35 list. A summary of the actions of the Commission as approved by the Executive Committee is shown by states in Table I.

|  |     |
|--|-----|
| Other actions of the Commission regarding the applications for approval: |     |
| Schools voluntarily withdrawn .....                                      | 15  |
| Schools dropped .....  | 4   |
| Schools warned for violation of certain standards .....                  | 183 |
| Schools advised to make specific improvements .....                      | 216 |

## SPECIAL REPORTS

1. *Chicago High Schools.* A special report on the conditions and needs of the high schools of Chicago as revealed in a survey conducted by the high school supervisors of the Illinois State Department of Public Instruction and of the high school examiners of the University of Illinois was submitted by A. W. Clevenger, Illinois. This report was carefully considered and the recommendations unanimously adopted.

2. *High School Library.* A report on "The Stephens College Library Program and its Implications for the High School Library" was given by B. Lamar Johnson, Stephens College.

3. *Regional Conferences.* A Report of the Committee on Regional Conferences on the National Survey of Secondary Education was submitted by W. W. Haggard, Chairman, Joliet Township High School and Junior College, Joliet, Illinois. This report was accepted and

the cooperation of the Commission extended.

4. *Study of Standards.* A report of progress of the special committee on the Study of Standards, authorized in 1933, was submitted by George E. Carrothers, Chairman, University of Michigan.

5. *Standards.* The recommendations of the Committee on Standards were submitted by J. D. Elliff, Chairman, Missouri, amended and adopted.

## EDUCATIONAL EXPERIMENTS

1. Reports on the following educational experiments were submitted, approved, and recommended that they be continued:

a. Little Rock Junior College. H. G. Hotz, University of Arkansas.

b. College High School of Colorado State Teachers College, Greeley. Dean C. R. Maxwell, University of Wyoming.

c. College High School, University of Chicago. Dean Thomas E. Benner, University of Illinois.

d. Tulsa, Oklahoma. J. D. Elliff, University of Missouri.

TABLE I  
ACTION OF THE ASSOCIATION ON ANNUAL REPORTS, BY STATES

| State                   | Schools Added | Schools Dropped | Schools Withdrawn | New Total | Schools Warned |
|-------------------------|---------------|-----------------|-------------------|-----------|----------------|
| Arizona . . . . .       | 2             | 0               | 0                 | 40        | 2              |
| Arkansas . . . . .      | 3             | 0               | 3                 | 71        | 4              |
| Colorado . . . . .      | 2             | 0               | 0                 | 101       | 9              |
| Illinois . . . . .      | 15            | 0               | 4                 | 379       | 28             |
| Indiana . . . . .       | 5             | 0               | 1                 | 120       | 6              |
| Iowa . . . . .          | 0             | 0               | 1                 | 154       | 10             |
| Kansas . . . . .        | 3             | 0               | 1                 | 179       | 6              |
| Michigan . . . . .      | 2             | 0               | 0                 | 216       | 9              |
| Minnesota . . . . .     | 3             | 0               | 0                 | 119       | 9              |
| Missouri . . . . .      | 6             | 0               | 0                 | 136       | 11             |
| Montana . . . . .       | 4             | 0               | 1                 | 40        | 3              |
| Nebraska . . . . .      | 2             | 0               | 0                 | 137       | 4              |
| New Mexico . . . . .    | 1             | 2               | 1                 | 34        | 5              |
| North Dakota . . . . .  | 0             | 0               | 1                 | 70        | 6              |
| Ohio . . . . .          | 11            | 0               | 0                 | 322       | 57             |

2. A request for permission to undertake an educational experiment in the Phoenix, Arizona, High School was referred to the Committee on Experimentation and Special Studies with power.

3. The Commission authorized the appointment of a representative to serve on the supervising committee for the experiment in general mathematics to be conducted at the University of Nebraska. This experiment was previously authorized by the Executive Committee and referred to the Commission on Unit Courses and Curricula for general supervision and guidance.

#### COMMITTEES AUTHORIZED

The Commission voted that a committee of three be appointed to investigate the advisability of classifying the approved high schools in such a way that complete reports from all approved secondary schools may not be required each year. The Chairman of the Commission appointed the members of the Special Committee on Study of Standards, a committee of five, to make this study.

#### JOINT MEETINGS AND CONFERENCES

1. The usual round-table discussion of State Chairmen was conducted on Wednesday evening, April 18.

2. On Thursday forenoon the Commission met with the Commission on Institutions of Higher Education. The program, Reports of the Committee on Revision of Standards, was conducted by the Commission on Institutions of Higher Education.

3. A conference of administrative heads of high schools with the Commission on Secondary Schools was conducted at the Piccadilly on Thursday evening, April 19, directly following the annual informal dinner. This conference was attended by nearly two hundred principals of secondary schools and others interested in the policies of the Association.

Mr. William C. Reavis, University of Chicago, presided.

#### MISCELLANEOUS

1. Voted that the terms "membership list" and the "approved list" of secondary schools, as used in the Constitution, shall be interpreted to mean one and the same list.

2. Voted to lay on the table for one year the recommendation that the proposed amendment to the Constitution regarding the composition of States Committees be adopted.

3. Voted to refer to the Committee on Experimentation and Special Studies the following action taken by the Executive Committee:

Voted to refer to the Commission on Secondary Schools the resolution pertaining to the recruiting of athletes in high schools adopted by the Commission on Institutions of Higher Education last year with the request that the Commission on Secondary Schools report to the Executive Committee its attitude toward this resolution.

4. Voted to request an appropriation of \$5,000 for each of the next three years to assist in financing the proposed study of secondary school standards.

5. Voted that the Central Reviewing Committee for next year shall consist of one representative from each state—either the state chairman or some individual designated by the state committee—and that the Association be requested to pay the necessary local expenses of this committee for one day during its two-day session.

6. Dr. J. D. Elliff announced his intention to retire very soon from the Chairmanship of the Missouri State Committee, a position he has held for the past twenty-nine years. An expression of the appreciation of the Commission for his long period of constructive service in the Association was extended by Professor A. A. Reed.

7. A unanimous vote of appreciation was extended to George E. Carrothers, the retiring Chairman of the Commission, for his efficient service during the past two years.

#### OFFICERS ELECTED

Upon the recommendation of the Nominating Committee consisting of

L. N. McWhorter, *Chairman*, Minnesota; J. A. Holley, Oklahoma; and Otto Dubach, Missouri, the following officers were elected for the ensuing year:

Chairman—R. L. HUNT, Chairman of Faculty, Culver Military Academy, Culver, Indiana  
Secretary—H. G. HOTZ, Professor of Education, University of Arkansas, Fayetteville, Arkansas

### II. POLICIES, REGULATIONS, STANDARDS, AND RECOMMENDATIONS FOR ACCREDITING SECONDARY SCHOOLS

Adopted April 21, 1934

#### I. POLICIES

Policies are rules governing procedures of the Commission on Secondary Schools.

1. No school that has been continuously accredited for five years is dropped without a year's warning, provided the annual report has been submitted to the state committee, except by a three-fourths vote of the members of the commission present. Schools not continuously accredited for five years may be dropped without warning.

2. Any school warned shall be dropped the following year if the school persists in violating the same standard.

3. *Five and six year high schools may report upon all grades included in the high school organization or they may, if they so elect, base their application upon the upper three or four years of the high school.*

4. The time for which schools are accredited shall be limited to one year, dating from the time of the adoption of the list by the Association.

5. Teacher preparation credits gained by summer session work, by extension courses, correspondence courses, or by state examinations will not be considered by the Commission unless such credits are accepted by some standard college as leading toward a degree.

6. The agent of communication between the accredited schools and the

Secretary of the Commission for the purpose of distributing, collecting and filing the annual reports of such schools, and for such other purposes as the Association may direct, is as follows: (a) In states having such an official, the inspector of schools appointed by the state university; (2) in other states, the inspector of schools appointed by such authority, or, if there be no such official, such person or persons as the Secretary of the Commission may select.

7. If any state fails for two successive years to send one or more official representatives to the annual meeting of the Commission on Secondary Schools, the schools of the state may, by vote of the Association, be dropped from the accredited list.

8. The interim authority for interpreting standards is the Secretary of the Committee on Standards.

#### II. REGULATIONS

Regulations are conditions which any school must meet in order that its application for accrediting may be considered.

1. No school can be considered unless the regular annual blank furnished for the purpose shall have been properly and completely filled out and placed on file with the inspector, on or before November first. Schools in good standing will make a complete report on teachers once in five years; but full data relative to

changes must be presented annually. (A full report will be required in 1935 and every five years thereafter.)

2. New schools, seeking accrediting, shall submit evidence (e.g., a resolution) showing an approval of the standards of the Association and of the application for membership by the local board of education or school trustees.

3. The Association shall decline to consider any school unless such school is in the highest class of schools as officially listed by the properly constituted educational authorities of the state.

4. (a) No new school will be accredited when more than 20 per cent of the teachers of academic subjects fail to meet the requirements of STANDARD 7, or when any teacher of academic subjects who has been in the school less than two years, including the present year, fails to meet the requirements of STANDARD 7.

(b) No new four-year school will be accredited which employs less than five full-time teachers, or the equivalent, four of whom, or the equivalent, must be full-time teachers of academic subjects. No new three-year senior high school will be accredited which employs less than four full-time teachers, or the equivalent, three of whom, or the equivalent, must be full-time teachers of academic subjects.

5. No school will be accredited whose program of interscholastic athletics is not in accord with the standards of the Association.

### III. STANDARDS

Standards are rules for the government of high schools which may be violated only upon penalty of warning.

**STANDARD 1—*The School Plant, Sanitation, Janitorial Service.*** (a) The school plant shall be adequate for the number of pupils enrolled and the program of studies offered.

(b) The lighting, heating and ventila-

tion of the building, laboratories, and toilets, wardrobes and lockers, water supply, school furniture, location of the class rooms, shops and laboratories, and janitorial service shall be such as to insure hygienic conditions for pupils and teachers.

**STANDARD 2—*Science Laboratories and School Library.*** (a) Science Laboratories. The laboratory facilities, the size of the laboratory, the equipment, instructional apparatus, materials, supplies, maps and charts must be adequate to meet the needs of instruction for all those courses involving laboratory work.

(b) The School Library. The number and kind of books, reference materials and periodicals must be adequate for the number of pupils enrolled and must meet the needs of instruction in all courses of study offered. The library must be easily accessible and the books shall be classified and catalogued.

**STANDARD 3—*Records.*** Accurate and complete records of attendance and scholarship must be kept in such form as to be conveniently used and safely preserved.

**STANDARD 4—*Requirements for Graduation.*** (a) Three-year senior high schools must require a minimum of eleven units for graduation. Four-year high schools must require a minimum of fifteen units for graduation; these units to be earned in grades 9, 10, 11, and 12.

(b) The school year shall consist of a minimum of thirty-six weeks.

(c) The minimum length of a recitation period shall be forty minutes, exclusive of all time used in changing of classes or teachers.

(d) A unit course of study in a secondary school is defined as a course, covering an academic year that shall include in the aggregate not less than the equivalent of one hundred twenty sixty-minute hours of classroom work, two class periods of unprepared work being

equivalent to one class period of prepared work.

**STANDARD 5—*Instruction and Spirit.*** The efficiency of instruction, the acquired habits of thought and study, the general intellectual and moral tone of a school and the cooperative attitude of the community are paramount factors, and therefore only schools that rank well in these particulars, as evidenced by rigid, thoroughgoing, sympathetic inspection, shall be considered eligible for the list.

**STANDARD 6—*Salaries.*** No school shall hereafter be accredited whose salary schedule is not sufficient to command and retain teachers whose qualifications are such as required by this Association. The interpretation of this requirement shall be a matter of special responsibility for the State Committee.

**STANDARD 7—*Preparation of Teachers.*** All schools accredited by the Association shall maintain the following standards respecting teachers:

(a) The minimum attainments of a teacher of any academic subject, of the supervisors of teachers of such subject, of the superintendent, and of the principal, shall be college work equivalent to graduation from a senior college belonging to the North Central Association of Colleges and Secondary Schools.<sup>1</sup>

(b) The minimum professional train-

<sup>1</sup> The following are listed as academic subjects: English, mathematics, foreign languages, natural science, and social science. All other subjects will be considered as non-academic.

Graduates of colleges not recognized by the North Central Association nor by any other regional accrediting agency may become eligible to teach in a secondary school accredited by the Association by being admitted to graduate standing in an institution of higher education accredited by the Association or by any other regional accrediting agency, and by completing successfully at least one summer term of not less than six weeks of graduate work. This part of the standard is not to apply to graduates of non-accredited colleges who desire to teach in the state where they graduated and where they are approved individually in accordance with the state plan.

ing of a teacher of any academic subject, of the supervisors of teachers of such subjects, of the superintendent, and of the principal shall be fifteen semester hours in education.<sup>2</sup>

Requirements (a) and (b) shall not be construed as retroactive within the Association.

(c) All teachers of academic subjects in new schools and all new teachers of academic subjects in accredited schools must teach only in those fields which they have made adequate preparation.

*The following are the minimum requirements:*

English, 15 semester hours

Foreign Languages, 15 semester hours in the language taught

Science, 15 semester hours, of which 5 shall be in the science taught

Mathematics, 15 semester hours

Social Studies, 15 semester hours, which must include preparation in specific subjects taught.

Deduction in the fields of foreign language and mathematics may be allowed to the extent of 2 semester hours for each unit earned in high school not to exceed a total deduction of 6 semester hours.<sup>3</sup>

(d) In all emergency appointments or class assignments during the school year in which teachers do not fully meet standards 7a, 7b, and 7c, the Commission will insist that these be temporary and for the remainder of the current term or semester only. Such cases must be certified by the superintendent or principal, including a statement concerning the training, experience, salaries, and efficiency of such teachers.

<sup>2</sup> Until professional courses are defined by the Association, this Commission will accept as such only courses certified as education by the institution in which they are earned. (See also Recommendation 1).

<sup>3</sup> New full-time teachers of academic subjects may teach outside their fields of definite preparation a minor fraction of the school day when in the opinion of the state committee this is the best temporary arrangement that can be made.

**STANDARD 8—*The Teaching Load.*** An average enrollment in the school in excess of thirty pupils per teachers shall be considered as a violation of this standard. For interpreting this standard the principal, vice-principals, study hall teachers, vocational advisers, librarians, and other supervisory officers may be counted as teachers for such portion of their time as they devote to the management of the high school. In addition, such clerks as aid in the administration of the high school may be counted on the basis of two full-time clerks for one full-time teacher.

**STANDARD 9—*The Pupil Load.*** Four unit courses, or the equivalent in fractional unit courses as defined in Standard 4, shall be considered the normal amount of work carried for credit toward graduation by the average or medium student. Only such students as rank in ability in the upper 25 per cent of the student body may be allowed to take *as many as five* units for credit. A different practice in the school must be explained to the State Committee.

**STANDARD 10—*Athletics.*** No accredited school shall participate in any national or interstate athletic meet or tournament or in any invitational athletic tournament or meet not approved by the state athletic association. Accredited schools not eligible to membership in the state athletic association are excepted.

**STANDARD 11—*Preparation of Superintendent or Principal.*** The superintendent or the principal directly in charge of the supervision and administration of the high schools shall hold a Master's degree from a college belonging to the North Central Association, or the equivalent, and shall have had a minimum of six semester hours of graduate work in education, and a minimum of two years of experience in teaching or administration.

This standard shall not be construed

as retroactive within the Association. *In individual cases a reasonable deviation from this standard for the school year 1934-35 recommended by the State Committee may be accepted by the Association.*

**NOTE.** The recommendation of the Executive Committee concerning the penalizing of schools because of economic conditions shall be interpreted as follows:

(1) Under this rule a school may claim exemption under one of the following standards only: STANDARDS 1, 2, 4(b), and 8.

(2) The burden of proof of the adverse economic condition rests on the school, and must be presented in writing and filed with the report.

(3) Schools which during the past two years did not maintain school terms of nine months or more cannot claim an exemption under STANDARD 4(b).

(4) The Reviewing Committee shall carefully weigh all evidence and decide each case on its merits. If a school violates two or more of the standards listed above, the chairman of the state committee in which the school is located shall indicate the standard under which the school may be granted exemption. State Chairmen are expected, furthermore, to advise each school regarding the standard under which an exemption was granted in 1933-34.

#### IV. RECOMMENDATIONS

Recommendations are guiding principles, suggested in the interests of improvement of secondary education, and are not to be considered as a basis for warning, advising or dropping a school.

1. The Association recommends the following types of courses as meeting the spirit of STANDARD 7b: Educational psychology, principles of secondary education, theory of teaching, special methods in subject taught, observation and practice of teaching, history of education, educational sociology, and school administration and supervision.

2. Accurate and complete records of attendance and scholarship should be kept in such form as to be conveniently used and safely preserved. For purposes of adequate guidance in the broadest

sense of that term, these records should be continuous, comparative, and cumulative, showing as graphically as possible the complete secondary-school record of each pupil as revealed by teachers' marks, by comprehensive standardized tests of aptitudes and scholastic achievement, and by personality data.

An official transcript of the college preparation of each teacher should be kept on file in the office of the administrative head of the high school. All information submitted in the annual report which pertains to the preparation of the teachers should be secured from such official records.

3. (a) The Association recommends that a teacher with less than one year of teaching experience should not be assigned more than four classes per day and should not be assigned full responsibility for any extracurricular activity nor complete charge of a large study hall or session room.

(b) The Association further recommends that each approved secondary School should feel responsible for furnishing training in service for a limited number of beginning teachers in order that an adequate supply of well trained secondary-school teachers may be furnished to the profession. In determining the number of beginning teachers that a school should employ, careful account should be taken of the adequacy and efficiency of the supervisory staff. It is not assumed that a school furnishing beginning teachers a year of training in service is under any special obligation to retain such teachers as regular members of the instructional force.

4. Some factors conditioning the efficiency of instruction are (a) the pupil-teacher ratio as shown by the average daily attendance, (b) the number of classes taught by the teachers, and (c) the number of student hours per teacher.

The Association recommends the fol-

lowing as norms: (1) pupil-teacher ratio, 25 to 1; (2) the number of classes taught by the teacher, 5 daily; and (3) the total number of pupil-periods per day, 150 per teacher.

5. The Association further recommends the introduction of vocational subjects such as agriculture, manual training, household economics, and commercial subjects, into schools where local conditions render such introduction feasible. The Association will hold that a sufficient number of qualified teachers must be provided to care adequately for all instruction offered.

6. The Association recommends the following provision for library maintenance:

*Personnel.* (a) Schools of 1,000 or more pupils, at least one full-time librarian who is professionally trained and holds a bachelor's degree or its equivalent.

(b) Schools of less than 1,000 pupils, part-time teacher-librarian with technical library training.

(c) Proper allowance for library aid.

*Books and Periodicals.* (a) Catalogued library of 800 live books chosen so as to serve school needs.

(b) About 15 periodicals chosen to serve the school needs.

(c) Proper allowance to be made for public library aid.

*Budget.* (a) At least \$200 per year for books and periodicals.

(b) At least 75 cents per pupil, according to local conditions.

7. *Athletics.* (a) The program of interscholastic athletics in high schools should be so organized, and administered as to contribute to the health, leisure time, citizenship and character objectives of secondary education. The aim should be to develop sufficient skill in one or more sports among all its pupils to provide an enjoyable form of recreation in later life.

(b) All athletic competition should grow out of and form an integral part of the physical education program of the high school.

(c) The administration of all athletic contests in the high school program should be entirely controlled by properly constituted school officials.

(d) Fair play, courtesy, generosity, self-control and friendly feelings for the

opposing school should not be sacrificed in the desire to win.

(e) The Association recommends that girls do not participate in any form of interscholastic basketball games or tournaments.

(f) The Association further recommends that no interscholastic athletic contest played at night be scheduled on a night preceding a school day.

### III. LIST OF APPROVED SECONDARY SCHOOLS, 1934

Effective March, 1934, to April, 1935

| Name and Location, Type of School, and Officer in Charge          | Accredited<br>Teachers | Pupils | Since |
|---|------------------------|--------|-------|
| <b>ARIZONA</b>  |                        |        |       |
| AJO, 4-year; C. S. Brown, superintendent                          | 4.5                    | 62     | 1927  |
| BISBEE Senior, 3-year; L. T. Rouse, principal                     | 19.6                   | 562    | 1917  |
| BENSON Union, 4-year; M. V. Williams, principal                   | 6.5                    | 83     | 1934  |
| BUCKEYE Union, 4-year; Herschel Hooper, principal                 | 6.2                    | 174    | 1932  |
| CASA GRANDE Union, 4-year; B. D. Reazin, principal                | 5.7                    | 144    | 1924  |
| CHANDLER, 4-year; F. P. Austin, principal                         | 10                     | 167    | 1923  |
| CLARKDALE, 4-year; G. B. Jones, superintendent                    | 7.6                    | 196    | 1921  |
| CLIFTON, 4-year; H. A. Liem, superintendent                       | 6                      | 115    | 1921  |
| DOUGLAS, 4-year; G. A. Bergfeld, principal                        | 18                     | 503    | 1919  |
| DUNCAN Union, 4-year; W. A. Townsend, principal                   | 7                      | 161    | 1923  |
| FLAGSTAFF, 4-year; J. P. McVey, principal                         | 9.2                    | 219    | 1925  |
| FLORENCE Union, 4-year; R. W. Taylor, superintendent              | 8.7                    | 222    | 1923  |
| GILBERT, 4-year; C. S. Fox, superintendent                        | 8                      | 97     | 1921  |
| GLENDALE Union, 4-year; C. A. Yeoman, principal                   | 15                     | 364    | 1920  |
| GLOBE, 4-year; H. E. Stevenson, superintendent                    | 15                     | 445    | 1916  |
| HAYDEN, 4-year; D. M. Hibner, superintendent                      | 6                      | 102    | 1934  |
| HOLBROOK, 4-year; D. R. Sheldon, superintendent                   | 6.5                    | 142    | 1927  |
| JEROME, 4-year; J. O. Mullen, superintendent                      | 7.7                    | 201    | 1922  |
| KINGMAN Mohave County Union, 4-year; John Girdler, superintendent | 7.5                    | 132    | 1924  |
| MARANA Union, 4-year; J. W. Garms, principal                      | 5                      | 45     | 1925  |
| MESA Union, 4-year; H. L. Taylor, superintendent                  | 22.6                   | 686    | 1918  |
| MIAMI, 4-year; G. A. Rye, principal                               | 10.5                   | 429    | 1919  |
| NOGALES, 4-year; F. E. Westerland, principal                      | 8.6                    | 232    | 1920  |
| PEORIA, 4-year; D. F. Jantzen, superintendent                     | 8                      | 145    | 1923  |
| PHOENIX, Union, 4-year; E. W. Montgomery, superintendent          | 127.2                  | 435    | 1917  |
| PRESCOTT, 4-year; A. W. Hendrix, principal                        | 12.5                   | 350    | 1917  |
| RAY, 4-year; D. M. Hibner, superintendent                         | 5                      | 88     | 1925  |
| SAFFORD, 4-year; G. S. Hansen, superintendent                     | 7                      | 272    | 1920  |
| SCOTTSDALE, 4-year; G. M. White, superintendent                   | 5.4                    | 116    | 1925  |
| SNOWFLAKE Union, 4-year; S. L. Fish, principal                    | 8.6                    | 232    | 1925  |
| ST. JOHNS, 4-year; L. P. Sherwood, principal                      | 5                      | 141    | 1932  |
| SUPERIOR, 4-year; J. A. Diffin, superintendent                    | 6.5                    | 134    | 1930  |
| TEMPE Union, 4-year; E. A. Row, principal                         | 10.8                   | 280    | 1919  |
| THATCHER Gila Junior College, 1-year; E. Edgar Fuller, president  | 3                      | 46     | 1917  |
| TOMBSTONE Union, 4-year; C. E. Tilford, principal                 | 5.2                    | 83     | 1925  |
| TUCSON Senior, 3-year; C. A. Carson, principal                    | 39.6                   | 1242   | 1917  |
| WILLCOX Union, 4-year; W. C. Sawyer, principal                    | 8.5                    | 116    | 1926  |
